The proposal for rate rise in Uralla shire is ludicrous The \$2200 we already pay per year is outrageous for the services we are given. With the current cost of living many people will not be able to afford the proposed rate rises Better management from council is what is needed. I implore you to take into account the effects this will have on ordinary working people of Uralla With the cost of living increasing and no wage rises this could be detrimental to the health and mental health of our community
