Your submission for this review:

I do not support Wagga Wagga City Councils (WWCC) application for an Additional Special Variation. The ratepayers and residents of Wagga Wagga are facing increasing pressures on their budgets with rising interest rates, rising petrol prices, rising inflation, increased insurance premiums, lack of and increasing costs of affordable and appropriate house and other increasing costs of living. WWCC must curb in their spending and cut costs and listen to the ratepayers of Wagga Wagga and do their job properly. Building a water pipeline to fill up Lake Albert is a costly and will need ongoing payments to purchase water to fill up the lake. I have attached a photo (which is not the best quality) of a large number of workers standing around some road works on the corner of Johnston and Trail Street which seems to be a bit of an overkill and expensive road repair. WWCC also has had a revolving door of General Managers which has cost a lot of money with payouts and recruitment. WWCC has had more code of conducts complaints than other Councils and with Councillors being developers on Council and not disclosing their pecuniary interests.
