Dear Mr Cox

I am writing regarding the Aquacell Supply Pty Ltd (Aquacell) licence application under the *Water Industry Competition Act 2006* for network operator's and retail supplier's licences for Workplace 6, Sydney.

NSW Health supports the licence application provided the following issues are adequately addressed. I request that Aquacell provide evidence to NSW Health that the treatment system has been validated and verified, in accordance with the *Australian Guidelines for Water Recycling: Managing Health and Environmental Risks (2006)*, to meet the treatment requirements needed for the end uses of the scheme. Additionally, I request that NSW Health is consulted regarding the adequacy of the Recycled Water Quality Management Plan, particularly regarding the incident notification and management procedures, training, and arrangements for ongoing maintenance of the system.

Thank you for the opportunity to make a submission. Should officers of IPART require further information, please contact Leslie Jarvis at the Water Unit, NSW Health on (02) 9816 0521.

Yours sincerely

 12/9/11
