

Junee Shire Council

Survey - Proposed Rate Increase through a Special Rate Variation Application (SRV)

Introduction

In the newsletter accompanying this survey Junee Shire Council has provided information and outlined why it has proposed to apply for a Special Rate Variation. Your opinion and comments are important to us, so we would like to ask you a few questions about this proposal.

In summary, Junee Shire Council is proposing to apply for a 10% increase in General Rates (which includes the announced rate peg limit of 3.4%) in 2013-2014. So an additional 6.6% in rates is being sought. This additional revenue will be put to the Council's road resealing and road renewal program.

In order to soften the financial impact to ratepayers the Council will not increase its Waste Management Charges and Sewerage Charges in 2013-2014.

The results of the following survey will be considered by the Council when it looks at its available resources and the services it will provide to the Junee community.

Please turn over to complete the survey.

Returning the Survey

You can return this survey in a number of ways.

1. Please place your completed survey in the collection boxes at:
 - Junee Junction Recreation & Aquatic Centre
 - Junee Post Office
 - Illabo Store
 - Bethungra Olde School Tea House
 - Wantabadgery Store
 - Junee Shire Councils office
2. Post to Junee Shire Council, PO Box 93, JUNEE NSW 2663

Please return your survey by Thursday, 28 February 2013.
For more information visit www.junee.nsw.gov.au

Thank you for your input. Your contribution is welcomed and valued.

Cr Lola Cummins
MAYOR

James Davis
GENERAL MANAGER

SURVEY FORM

Q1. How important do you believe it is for the road network to be appropriately maintained?

Very important	✓

No	
Undecided	

Q4. Do you support the proposed rate increase for the purpose of providing funds to maintain the condition of the road network across the Shire?

Yes	
No	✓
Undecided	

Other comments welcome?

I don't mind paying for the infrastructure, but I do mind paying for employees to take ~~the~~ cars away on holidays. I know they pay for their cars but it's a bit of give & take. We are still paying for their petrol. The cars they drive are way over the top. Other councils don't seem to have the cars we do.

Ensure Transparency of what is spent on what!
 If there is a Special Rate Variation
 then there should be a set period. Next
 financial year the "pegged" rate should be less
 than 3.4%.

Other comments welcome? It would be nice to see some of our Rates get out of centre of town Example streets gutters cleaned dropped ~~bras~~ picked up - Also stop charging for green waste at tip or give us a green bin, we mow your footpaths then get charged to take it to tip clean our own gutters & get charged for that also.

*To run your own survey is a joke. No one believed the results.
 Not to increase sewer & waste means rural subsidise town dwellers.
 this is not acceptable.
 I received this survey 2 days before the close date. When
 did the town residence receive it ???*

*I am sick of subsidising a pool I never use, parks I
 never use and now the sewerage & town garbage collection.
 do your job. I am already spending thousands of dollars*

Use rail network more.

Other comments welcome?

While we agree the town looks great these days and more visitors and tourists are coming to town, it doesn't seem to have assisted a lot of our shops and small businesses who are either struggling or shutting down. Therefore, we need to weigh up the benefits. Especially when residents are already paying such high prices for electricity and water.

*I would like to see Council seal some more of the rear lanes.
I am quite happy to pay a little more Rates
I think Junee does a good job maintaining
Parks & Gardens*

At the moment we rural farmers get very little for our rates — a tip keg, our roadside sprayed for weeds, often NOT at an effective time & our road hastily patched at harvest time. We feel that any extra money benefits the township only. We are struggling now to pay the rates as they are — 10% will really make life hard!

June Council has spent alot of money on infrastructure like the wetlands / Laurie Daley dam, etc. & picket fencing on Railway way / . Although! these things are great for our town; in modern times we should be doing things as we can afford them after maintaining the necessities eg - Roads & up keeps.

→ unsure of where extra funding would be spent.

Other comments welcome?

Very little maintenance & repair gets done in a few residential areas - guttering & roads a disgrace (Grouster/Lord/Marquis area & some areas off Kenpast) just to list a few.

Instead of focusing on beautifying for visitors, maybe it's time to start doing something for the ratepayers.

Plus, HUGE lack of ~~paths~~ footpaths in streets of North Junee - not too many safe areas for children to walk/bike to school.

With the cost of living due electricity gas food petrol costs it would be a disaster to increase rates. If the proportion I feel that people will loose a lot of rate payers due to increase costs. I would rather see all councils to make a joint submission to State & Federal Governments for extra cash for road funding

concerned ratepayer

IF the roads were maintained and resealed correctly in the first place so much money would not have to be spent. Using a jet of Bitumen to fill a hole Doesn't work as soon as you drive over it the stones fly everywhere. look at other states such as WA & NT how well their roads are maintained so you spend the money once not every few weeks. Road Safety is of extreme importance.

Cost savings should be found first to fund essential road works. Rates should not be increased, already too high.

I think Rate Pegging has hampered the Council's financial position to the point that their income does barely allow for a maintenance program let alone a renewal or expansion program.

3/4/2013 1:18 PM [View respondent's answers](#)

I think these questions are very loaded and unfair, where are the ones about do we think the Council does a good job in all it does. there are too many inconsistencies in council decisions , projects and results. There is way too much effort in pleasing the Lord street business and money that is put into tourism and the Marrar based consultant who benefits from this. You are asking us to subsidise the roads and other projects for the benefit of a few businesses. I think you need to take a hard look at who actually makes Junea a community and focus on that. There are many long standing businesses here that have not received equal attention; they employ locals , support locals and the locals that support them pay rates. Tourists do not pay rates to our shire and from what i have seen they benefit one or two businesses at the most. There is more to Junea than a Haunted house or Charlie and the Chocolate Factory.

3/1/2013 7:20 AM [View respondent's answers](#)

I think the whole of the shire roads and infrastructure needs to be given the same level of attention. Cut back on unnessecary beautification work. Concentrate on the very worst sections of road first. Sometimes it looks like sections of road are worked on that were in better condition than a section 100 m up the road.

2/28/2013 9:40 AM [View respondent's answers](#)

As a fringe community, we dont have a lot of service to our infrastucture to start with, to lower any service would make it non existant. Before a rate increase i would like to see a list of roads where council propose to spend the funds, and what time frame.

2/28/2013 9:18 AM [View respondent's answers](#)

Of course I would support the ongoing maintenance of the road network. However, perhaps if the community had a say in what roads were maintained. Instead of resealing roads just to use allocated funds this would justify such a proposal. Also, it depends on what infrastructure/services that could be reduced to prevent such a rate hike. Are there services we do not need? Could some services be reduced or sub-contracted to reduce running costs? Surely there is more to such a decision than "do you or don't you support it". If not supported, does this mean the council will reduce or remove a service as they see fit regardless of public opinion on the service in question? A little more information or choice on such a proposal would give a much broader informed view of the general public opinion. This survey is very inadequate and narrow minded in its line of questioning. It appears geared to support the council proposal regardless of true public opinion or consensus and overall effect of such a decision.

2/27/2013 4:45 PM [View respondent's answers](#)

More of the taxes we pay to the State and Federal Governments should be returned to our Councils to be spent in the community, where it is needed. If this is not happening, why are we blindly paying taxes? I believe that 10% more on our rates is not going to solve the problems.

2/27/2013 12:06 PM [View respondent's answers](#)

Q3. Is there really a choice. Service levels must drop if the SRV fails.

2/21/2013 9:52 PM [View respondent's answers](#)

Reluctantly agree

2/21/2013 11:34 AM [View respondent's answers](#)
