

Delivering our future

Delivery Program 2022 – 2026

Operational Plan 2022 – 2023

Living and loving the Tweed

Council values and statements

Statement of acknowledgement of the Bundjalung Aboriginal Nation

We wish to recognise the generations of the local Aboriginal people of the Bundjalung Nation who have lived in and derived their physical and spiritual needs from the forests, rivers, lakes and streams of this beautiful valley over many thousands of years as the traditional custodians of these lands.

What we value

We look after people and our places, explore all opportunities, and are proud of our passionate approach.

We care about each other, choose to be here, and are in this together.

We have conversations where everyone can contribute, and we are willing to have a go.

We put back in to make a difference, so that our Tweed community is even better tomorrow than it is today.

Vision

The Tweed will be recognised for its desirable lifestyle, strong community, unique character and environment and the opportunities its residents enjoy.

Mission

Working with community and partners, provide leadership in facilitating and delivering services that manage growth sustainably, create opportunity and enhance the value of our civic and natural assets for this and future generations.

Living and loving the Tweed

A message from the Mayor

I am optimistic about the Tweed's future and am extremely proud of our wonderful community. We prove time and time again how strong and resilient we are and it is often in times of crisis that this strength shines the brightest.

We will all need to draw on this strength and resilience as we work together to recover from the devastating floods, look ahead to build our resilience to future flood events and tackle long term issues such as housing. It is only by working together that we will be able to move forward.

As always, it is essential that the best interests of the community are central to Council decision-making, and it is incredibly important for the community to play an active role and work together with Council to make the Tweed an even greater place to live, work and visit.

The Tweed community's vision and priorities for the next decade are described in the Community Strategic Plan (CSP). The CSP is one of the most important strategic documents for Council and makes sure that our community's priorities guide all other Council plans and strategies, including this one.

This Delivery Program and Operational Plan sets out the specific programs, projects and activities that Council plans to complete in the next 12 months to work toward achieving the community's vision and priorities. It also describes the expected financial and other resources required to deliver these programs and how Council intends to measure its progress.

On behalf of my fellow Councillors, I would like to encourage the Tweed community to follow Council's progress by reviewing our regular reports and work with us to achieve the outcomes our community deserves. Our community is capable of so much when we work together, and we look forward to continuing to work with you to help make the Tweed of tomorrow even better than it is today.

Chris Cherry
Mayor of Tweed

A message from the General Manager

The Tweed has faced many challenges over the past few years with COVID-19 and the devastating floods in early 2022 in particular having a significant impact on our businesses and community. Around 500 homes were declared uninhabitable in the recent floods, with many more significantly damaged. Council's roads, water supply, wastewater system, buildings, equipment and parks have also been damaged and will require major repairs, some of which will take up to 12 months to complete. Damages are expected to top the \$45 million cost to Council of the 2017 flood.

While Council has access to some Federal and State Disaster funding to help meet some of this cost, the financial impact will be very significant for many years. It is an important reminder that we must be responsible with balancing our budget so we are in a position to quickly recover from and build our resilience to unexpected disaster events when they occur.

This is where the four year Delivery Program makes a real difference. It works in sync with our Resources Strategy, particularly the Long Term Financial Plan and Workforce Management Plan, to not only set out the program we will deliver but importantly make sure we can resource it appropriately. The capital works and associated funding outlined in these document are based on pre-flood event programming and therefore may be subject to change.

While we continue to meet our obligations in response to the floods, we also continue to plan for our long term future. The *Tweed Community Strategic Plan 2022 – 2032 (CSP)* has identified our community's vision for the future of the Tweed and 4 key priorities for the next 10 years. It includes our community's long-term goals, strategies to get there and how we will measure our progress towards that vision.

Our community has identified 4 key priorities:

- We want to be safe at home and in the community with reliable essential services and infrastructure
- We want the Tweed's people and places to thrive
- We want to plan so the Tweed grows and evolves in a sustainable way
- We want a healthy natural environment

This Delivery Program and Operational Plan set out the specific programs, projects and activities that Council plans to implement over the next 12 months to work toward achieving the long term goals in the four key priority areas outlined in the CSP.

Council will progress some major projects in the Tweed in the 2022/23 financial year. Priorities will include the Northern Rivers Rail Trail, construction of a new animal pound facility, progressing the Industry Central land swap (to move businesses out of the flood zone) and the planning phase for raising of Clarrie Hall Dam to name a few.

Council remains committed to working together with other levels of government; people and organisations across the Tweed to recover from the 2022 flood events in the short term and also make progress toward achieving the community's long term vision for the Tweed.

By working together, we can ensure Tweed remains a great place to live, work and enjoy.

Troy Green
General Manager

Your elected Council

The Mayor and Councillors (December 2021 to September 2024)

At the Tweed Shire Council Local Government Election held on Saturday 4 December 2021, the following Councillors were elected to represent the Tweed for the Council term which will now conclude in September 2024.

At the first Extraordinary Meeting of the new Council held 11 January 2022, Cr Chris Cherry was elected as Mayor until September 2023 and Cr Reece Byrnes was elected as Deputy Mayor until December 2022.

Mayor Chris Cherry

Deputy Mayor Reece Byrnes

Cr Rhiannon Brinsmead

Cr Meredith Dennis

Cr Nola Firth

Cr James Owen

Cr Warren Polglase

Council Meetings

Council meetings are generally held in the Council Chambers at the Murwillumbah Civic and Cultural Centre at Tumbulgum Road, Murwillumbah or the Harvard Room at the Tweed Heads Administration at Brett Street, Tweed Heads on the third Thursday of each month. Occasionally, there may be changes to the date or venue of a Council meeting and this will be communicated through Tweed Link. For meeting dates and times visit tweed.nsw.gov.au/council-meetings

Planning Committee meetings are generally held in the Council Chambers at the Murwillumbah Civic and Cultural Centre at Tumbulgum Road, Murwillumbah or the Harvard Room at the Tweed Heads Administration at Brett Street, Tweed Heads on the first Thursday of each month. These meetings deal exclusively with matters pertaining to land use planning.

These meetings are open to the public. Confidential items are considered in closed sessions, which exclude press and public.

Agendas for meetings are available on Council's website from 8pm on the Tuesday of the week preceding the meeting and all minutes are available as soon as practical following the meeting. Should a long weekend occur on the Monday of the week prior to the meeting, every effort will be made to ensure that agendas will be uploaded by 8pm on the Wednesday night.

Public forums (previously Community Access) sessions are convened immediately prior to Council meetings and Planning Committee meetings to enable the community to address Councillors on items for Council's consideration. A booking is required and can be made by contacting Council.

Our community

- The Tweed is one of the most desirable places to live in Australia and has the fastest growing population in the region.
- The Bundjalung people lived in the Tweed more than 40,000 years prior to the arrival of European cedar getters who established settlements here in the 1840s.
- Today, the Tweed is home to almost 100,000 residents, from all around the globe.
- We are seeing a widening of the gap between those with socio-economic advantage, and those who are disadvantaged or vulnerable.

Our economy

- The Tweed has a diverse economy with sustained growth.
- This growth has seen the emergence of innovative, sustainable and creative technologies.
- The clean, green natural beauty, relaxed lifestyle and environmental credentials of the Tweed make it an attractive destination for new businesses.
- The Tweed is strategically located to take advantage of South East Queensland markets as well as Brisbane's international airport and the Port of Brisbane.
- The new Tweed Valley Hospital in Kingscliff (due for completion in 2023) will assist the continued growth of the health care industry in the Tweed.

Key industries in the Tweed

 tourism	 health care	 food & beverage manufacturing
 agriculture	 events	 arts and creative

Key statistics

 \$3.94b value of the Tweed economy	860 new business registrations in 2020–2021	9,291 travel to Queensland for work	7,808 registered business
	42,708 employed residents	32,937 local jobs	4.6% unemployment

Largest employing industries

 16.9%	healthcare and social assistance
 15.9%	retail trade
 10.2%	accommodation and food services

Largest growth industry last 5 years

 Gold Coast Airport 5th largest airport in Australia	+950 retail trade	+517 manufacturing
--	-----------------------------	------------------------------

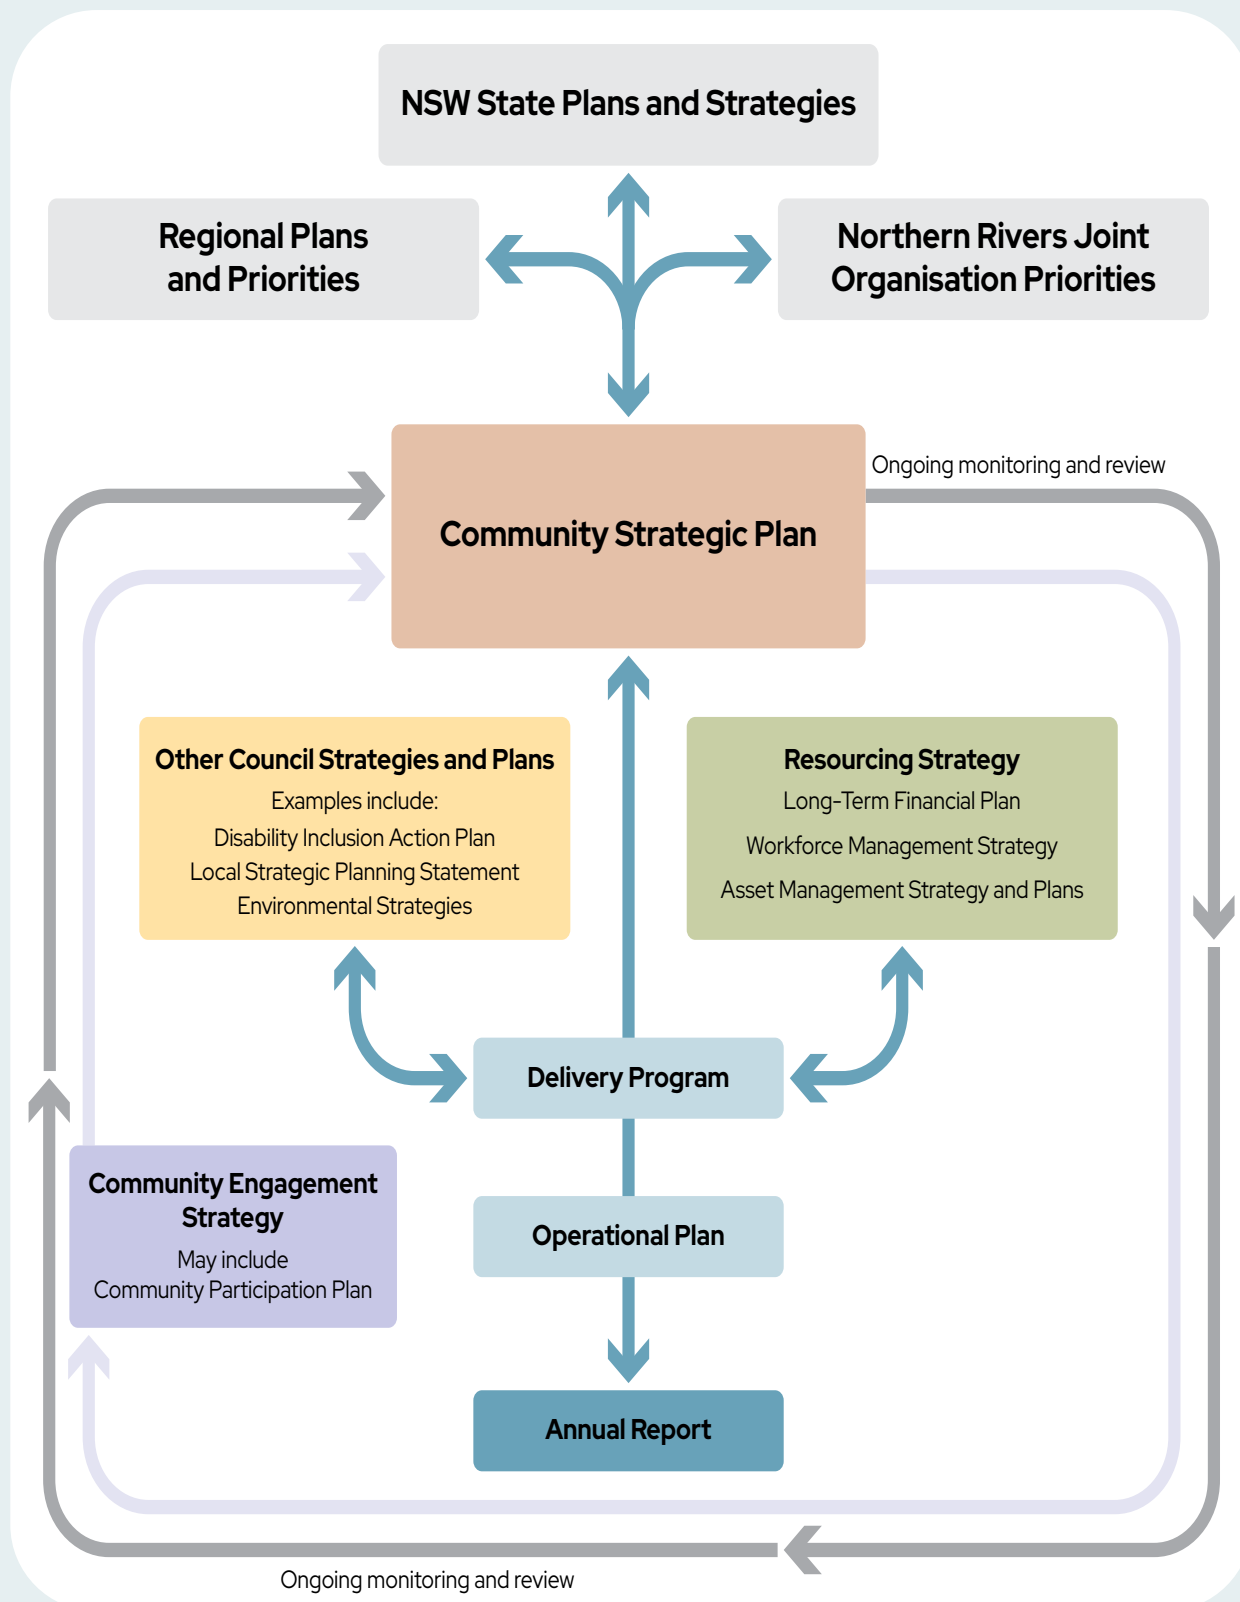

Our environment

- The Tweed features world-significant biodiversity, rivers, wetlands, forests, mountainous regions, pastoral and farm land.
- 37 km of coastline.
- 3 World Heritage listed national parks.
- Unique and complex landform dominated by the remnant of the Wollumbin/Mt Warning shield volcano that supports Australia's highest concentration of threatened plant species and fauna diversity.
- The entire catchment of the Tweed River and its tributaries is encompassed within the Tweed Shire local government boundary.

The Integrated Planning and Reporting Framework

Our planning framework

Community Strategic Plan 2022 – 2032

The *Community Strategic Plan 2022 – 2032* is the overarching, visionary document in Council's Integrated Planning and Reporting Framework. It translates the community's key priorities and aspirations into long-term strategic goals that guide the future direction of Tweed Shire. Environmental protection and stronger communities were leading concerns identified during community engagement to create the plan.

Council has a custodial role in developing the Plan, while realising its long-term strategic goals is a shared responsibility between Council, the community and other government and non-government entities.

Delivery Program 2022 – 2026 and annual operational plans

The *Delivery Program 2022 – 2026* and annual operational plans detail Council's role in the delivery of projects and services for a 4 year period to realise long-term strategic goals. They detail the delivery of planned projects and services for each year, aligning each action to a budget and outlining any other resourcing issues. Each activity is also assigned to a Council officer who is responsible for its delivery.

Council's progress in delivering each planned project and service is monitored by budget reviews and a set of key performance indicators reported to the community every 3 months. An Annual Report is also prepared to provide a yearly report on Council's overall progress and a State of the Shire report at the conclusion of the 4-year term.

The Community Engagement and Participation Plan

The *Community Engagement and Participation Plan* details how Council engages with the community and other relevant stakeholders to develop and complete the long-term strategic plan. It outlines how Council will regularly engage with the community to determine the community's needs and aspirations for the future of the Tweed.

Resourcing Strategy

The *Resourcing Strategy* outlines Council's capacity to manage assets and deliver services over the next 10 years. The Resourcing Strategy's key elements are a *Long-Term Financial Plan*, a *Workforce Management Plan* and *Asset Management Strategy*. Council must effectively manage its finances, the sustainability of its workforce and the cost of providing and maintaining community assets and services.

Capital Works Program

Council will maintain a 10-Year Capital Works Program, supported by its asset management plans, to prioritise the allocation of scarce funds to capital projects and refurbishment programs identified in the Delivery Program.

The long-term financial plan provides realistic projections of available funds, to help determine which projects proceed.

The capital works planning cycle is synchronised with the annual Operational Plan, with works priorities reviewed annually to take elected Council and community expectations into account.

Planned capital works are listed under 'Significant projects/works' for each service category (identifying the years in which the works are expected to be carried out) and are also listed in the full combined capital works budget listing contained within the 'Financials' section of this document.

The capital works and associated funding outlined in these document are based on pre flood event programming.

As a result of the amount of post flood infrastructure rebuilding works ahead for Council – the listed capital works may be subject to change.

Service graphs (what it costs)

Each of the services contained within this plan contain a graph outlining the cost of the service and the sources of funding utilised to cover this cost. The following definitions are intended to assist with understanding the various terms contained within these graphs:

Expenditure: Consists of general operating expenses, capital works expenditure, loan payments, internal charges from other services and transfers of funds to reserves for future use.

General revenue: Consists of general rate income, interest earned on investments, pensioner rebate subsidies and financial assistance grants received.

Fees and charges: Consist of income received from regulatory fees, private works and general fee for use charges.

Grants and contributions: Consists of operating and capital grants received from other levels of government, developer contributions and other specific purpose contributions received. Note: Some Council services that are regularly in receipt of grants (e.g. Natural Resource Management services) do not display any grant income on their service graphs. Only those grants that are confirmed at the time of preparing the budget are included in the upcoming budget.

Reserve revenue: Consists of transfers of funds from accumulated reserves towards the project(s) for which those reserves have been set aside.

Other revenue: Consists of interest earned on developer contributions, proceeds on sale of assets and internal charges to other services. Key Performance Indicators (how we measure) for some of the services contained within this plan relate to achieving asset condition ratings to a specified numerical level.

Asset condition ratings explained

The following table is provided in order to assist in understanding what the numerical targets represent:

Condition rating	Community rating	Description of asset condition
0	Brand New	A new asset or recently constructed/reconstructed.
1	Excellent	An asset in excellent overall condition however is not new and shows no signs of distress or defects.
2	Good	Sound construction with good condition and no distortion with limited ageing or may show minor distress upon close inspection such as sporadic fine cracking or isolated minor defects with no associated distortion.
3	Fair	Reasonable construction showing some aging and or signs of distress, such as fine to moderate cracking and or minor distortion. The extent of such defects will typically affect less than 20% of the asset targeted for assessment and can be rectified with minor maintenance works.
4	Poor	Asset displays substantial deterioration (20% to 50%) of distress. Major renewal work required.
5	Very Poor	Asset displays significant locations of distress (greater than 50%). Extensive renewal work required.

Streams, goals and key services

Protecting

We want a healthy natural environment

Living

We want to be safe at home and in the community with reliable essential services and infrastructure

Thriving

We want the Tweed's people and places to thrive

Growing

We want to work together to plan for the future so the Tweed grows and evolves in a sustainable way

Protecting

1. We want a healthy natural environment

1.1 Take action as caretakers for our internationally significant environment to pass onto our next generation.

- > Biodiversity Management
- > Bushland Management
- > Coastal Management
- > Pest Animal Management
- > Waterways (Catchment) Management

1.2 Work together to reduce our impact on the natural environment and adapt to climate change for a sustainable future.

- > Environmental Sustainability
- > Resource Recovery
- > Sustainable Agriculture

Living

2. We want to be safe at home and in the community with reliable essential services and infrastructure

2.1 Provide safe, sustainable and affordable water supply and wastewater services as the foundations of a healthy community.

- > Water Supply
- > Wastewater Services
- > Tweed Laboratory

2.2 Deliver a safe and connected local road and active transport network that can accommodate increased traffic as our shire grows and connects people, places and businesses to each other.

- > Roads and Traffic
- > Footpaths and Cycleways

2.3 Make sure the places we live, work and visit are safe to protect our quality of life.

- > Animal Management
- > Building Certification
- > Compliance
- > Development Assessment
- > Development Engineering and Subdivision Assessment
- > Environmental Health

2.4 Work together with others to prepare for, mitigate and build resilience to both natural disasters and the impacts of climate change.

- > Floodplain Management
- > Local Emergency Management
- > Stormwater Management

Thriving

3. We want the Tweed's people and places to thrive

3.1 Support our community to be inclusive and care for each other to create stronger community bonds and support for those in need.

- > Cemeteries
- > Community Care
- > Community Development

3.2 Provide our community with opportunities to be active and healthy.

- > Aquatic Centres
- > Lifeguard Services
- > Parks and Open Spaces
- > Public Toilets
- > Sporting Fields

3.3 Build a vibrant community to be a great place to live and visit.

- | | |

- > Business Enterprise
- > Business Support
- > Employment Lands

Growing

4. We want to work together to plan for the future so the Tweed grows and evolves in a sustainable way

4.1 Plan ahead so the Tweed is ready for the future.

- > Financial Services
- > Strategic Land-use Planning

4.2 Join with the community to make the Tweed better tomorrow than it is today.

- > Communications and Engagement
- > Councillor and Civic Business
- > Customer Service (Contact Centre) and Customer Experience

4.3 Support Council services, programs and operations to be effective and transparent.

- > Construction
- > Design Services
- > Governance
- > Human Resources and Work Health and Safety
- > Information Technology
- > Internal Audit
- > Plant and Materials
- > Procurement Services
- > Property and Legal Services

Protecting

1. We want a healthy natural environment

1.1 Take action as caretakers for our internationally significant environment to pass onto our next generation.

- > Biodiversity Management
- > Bushland Management
- > Coastal Management
- > Pest Animal Management
- > Waterways (Catchment) Management

1.2 Work together to reduce our impact on the natural environment and adapt to climate change for a sustainable future.

- > Environmental Sustainability
- > Resource Recovery and Waste Disposal
- > Sustainable Agriculture

1.1 Goal: Take action as caretakers for our internationally significant environment to pass onto our next generation.

1.1.1 Biodiversity Management

Responsible Officer: Unit Coordinator Sustainability and Environment

Our service goal

To protect and improve the vegetation and wildlife habitat values of the Tweed.

What we deliver

- Internal and external advice on biodiversity issues, legislative requirements and strategic planning
- Biodiversity policy development and implementation
- Biodiversity research and monitoring
- Threatened species management and recovery programs
- Assist landholders to protect vegetation and habitat values through private land conservation programs

What we use to deliver

- 6 Council staff have primary responsibility for providing this service
- Landcare and other volunteers (approximately 200 hrs per week)
- Contractors are used for:
 - ecological restoration and land management services
 - preparation of strategic planning documents

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26
1	Complete ecological referrals for planning proposals, major projects, development applications and tree preservation orders	#	>0	>0	>0	>0
2	Percentage of Tweed Coast Comprehensive Koala Plan of Management actions complete or on track	%	85	85	85	85
3	Increase in participation in private land conservation programs	#	>0	>0	>0	>0

What it costs

What you told us – 2021

Importance	82%
Satisfaction level	88%

Significant projects/works

Project	2022/23	2023/24	2024/25	2025/26
1 Ongoing creation of additional koala habitat on private and public land toward the KPOM target of 300 hectares	•	•	•	•
2 Review Conservation (C) Zones in accordance with the Far North Coast E-Zone Review	•	•	•	•
3 Implementation of the Shire-wide Flying-fox camp management plan	•	•	•	•
4 Prepare and adopt the Tweed Shire Conservation Strategy	•			
5 Review and update the Tweed Coast Koala Plan of Management	•	•		

1.1 Goal: Take action as caretakers for our internationally significant environment to pass onto our next generation.

1.1.2 Bushland Management

Responsible Officer: Unit Coordinator Sustainability and Environment

Our service goal

To protect and improve the conservation values of Council’s bushland reserves and meet legislative responsibilities for biosecurity and bushfire risk.

What we deliver

- Programs that protect and improve the conservation values of Council’s bushland estate
- Bushfire hazard reduction works to mitigate the risk of bushfire spread from Council’s land and meet obligations under the *NSW Rural Fires Act*
- Monitoring and management of priority weed species on Council’s land to reduce weed threats and meet obligations under the *NSW Biosecurity Act*

What we use to deliver

- 1 Council staff member has primary responsibility for providing this service
- Contractors are used for:
 - ecological restoration and land management services
 - hazard reduction and bushfire risk mitigation services

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26
1	Percentage of actions in bushland management plans that have been completed or are on track	%	80	80	80	80
2	Percentage of bushfire Asset Protection Zones maintained	%	95	95	95	95

What it costs

What you told us – 2021

Importance	82%

Significant projects/works

Project	2022/23	2023/24	2024/25	2025/26
1 Plan and support bushfire risk mitigation works and hazard reduction burns on bushland reserves in accordance with land management plans and the Tweed Coast Koala Fire Management Plan	•	•	•	•
2 Develop and implement an annual communications and engagement plan	•	•	•	•

1.1 Goal: Take action as caretakers for our internationally significant environment to pass onto our next generation.

1.1.3 Coastal Management

Responsible Officer: Unit Coordinator Sustainability and Environment

Our service goal

To protect and manage the use and quality of the Tweed's beaches and foreshores.

What we deliver

- Identify coastal hazards and manage risks
- Beach access and use management
- Waterways access (via facilities) and use management
- Supporting Dunecare to manage coastal vegetation

What we use to deliver

- 6 Council staff members have primary responsibility for providing this service
- Landcare and other volunteers (approximately 100 hrs per week)
- Contractors are used for:
 - fabrication and installation of infrastructure
 - specialist assessment of erosion risk and hazard reduction options

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Percentage of Coastal Management Program actions complete or on track	%	80	80	80	80
2 Median annual condition rating of beach access ways and viewing platforms	#	<3.5	<3.5	<3.5	<3.5

3	Develop, adopt and implement Tweed Coastal Management Program	•	•	•	•
4	Deliver priority actions from Waterways Infrastructure Asset Management Plan including Anchorage Island Harbour Management	•	•	•	•

1.1 Goal: Take action as caretakers for our internationally significant environment to pass onto our next generation.

1.1.4 Pest Animal Management

Responsible Officer: Unit Coordinator Sustainability and Environment

Our service goal

To manage and reduce impacts of introduced animals on environmental assets and discharge Council's general biosecurity duty under the NSW Biosecurity Act.

What we deliver

- Management programs for introduced animal species on council managed land
- Community engagement, education and technical advice
- Community pest management programs
- Research that seeks to improve on-ground management
- Programs that protect native fauna from the impacts of domestic pets and pest species

What we use to deliver

- 3 Council staff have primary responsibility for providing this service
- Contractors are used for:
 - on-ground management works
 - strategic planning documents
 - threatened species population surveys
- Volunteers contribute to Indian myna and cane toad trapping

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Number of priority Council bushland reserves with active monitoring and control of introduced animal species	#	6	6	6	6

3	Implementation of the Northern Rivers Monitoring Protocol for Feral Deer and Control Plan for Feral Deer	•	•	•	•

1.1 Goal: Take action as caretakers for our internationally significant environment to pass onto our next generation.

1.1.5 Waterways (Catchment) Management

Responsible Officer: Unit Coordinator Sustainability and Environment

Our service goal

Maintain, protect and enhance Tweed Shire's waterways and catchments

What we deliver

- Water quality monitoring
- Waterway protection and restoration
- Strategic planning for waterway conservation and management
- Community engagement and education

What we use to deliver

- 5 Council staff have primary responsibility for providing this service
- Volunteers (40 hrs per week)
- Contractors are used for:
 - ecological restoration and land management services
 - preparation of strategic planning documents

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26

3 Produce annual Tweed water quality report	•	•	•	•

1.2 Goal: We work together to reduce our impact on the natural environment and to adapt to climate change for a sustainable future.

1.2.1 Environmental Sustainability

Responsible Officer: Unit Coordinator Sustainability and Environment

Our service goal

To support Council, businesses and the community to reduce environmental impacts and respond to climate change in an economically and socially responsible way.

What we deliver

- Corporate, business and community awareness, engagement, and education initiatives
- Corporate sustainability strategies
- Corporate environmental projects, monitoring and reporting
- Community environmental reporting

What we use to deliver

- 1 Council staff has primary responsibility for providing this service. Other Council services support the sustainability program
- Volunteers (varied)
- Contractors are used for:
 - strategy development
 - technical energy efficiency and renewable energy expertise
 - carbon mitigation advice
 - regional State of the Environment report coordination

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26
1	Compliance with the Global Covenant of Mayors standard for local government responses to climate change	%	100%	100%	100%	100%
2	Reduction of greenhouse gas emissions	%	25	>25	>25	50
Targets						
• 25% reduction in grid electricity emissions by 2022 compared to 2016/2017						
• 50% reduction in grid electricity emissions by 2025 compared to 2016/2017						
3	Sustainability program engagement initiatives	#	4	4	4	4

What it costs

What you told us – 2021

Significant projects/works

Project		2022/23	2023/24	2024/25	2025/26
1	Prepare and report climate change risk assessment and adaptation plans	•	•	•	•
2	Facilitate and report on energy efficiency projects and renewable energy installations at Council facilities in line with the Renewable Energy Action Plan	•	•	•	•
3	Tweed Sustainable Living and Sustainability Awards events (alternate years)	•	•	•	•
4	Prepare and implement Community Emissions Reduction Strategy (subject to resourcing)	•	•	•	•

1.2 Goal: We work together to reduce our impact on the natural environment and to adapt to climate change for a sustainable future.

1.2.2 Resource Recovery

Responsible Officer: Unit Coordinator Resource Recovery

Our service goal

To collect, recycle and dispose of residential and commercial waste, manage tip sites and deliver community education so as to divert rubbish from landfill.

What we deliver

- Rubbish collection, disposal and recycling services
- Adequate facilities and planning to minimise service interruptions and to cater for current and future demand
- Disposal service for special waste including e-waste, oil, batteries, domestic chemicals and paint, fluorescent bulbs and tubes
- Community education and engagement to support the use of the various resource recovery options

What we use to deliver

- 11 Council staff have primary responsibility for providing this service
- These staff are supported by a number of high value contracts which engage an additional 20 plus staff
- The key aspects of this service provided by contractors include recycling and the collection of waste from households

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26
1	Diversion from landfill of rubbish collected from Red, Yellow and Green bins	%	58	59	60	60
2	Diversion from landfill of all waste received at the tip	%	60	60	60	60
3	Household organics collected for reuse (av. kg per household per year)	#	340	350	360	370
4	Household recycling product collected for reuse (av. kg per household per year)	#	220	230	235	240
5	Compliance with environmental standards for tip sites	%	99	99	99	99

What it costs

Project	2022/23	2023/24	2024/25	2025/26
1 Stotts Creek Internal roadworks and traffic management	•	•	•	•
2 Stotts Creek last putrescible landfill cell construction	•	•		
3 Weighbridge and office upgrade	•	•		
4 Transfer Station infrastructure			•	•
5 Site office, amenities, parking, shop	•	•		
6 Wetland and leachate pond		•	•	
8 New landfill in Quirks Quarry				•
9 Capping and closure of Cells A and B				•
10 Rehabilitation works SCRRC	•	•	•	•
11 Upgrade water and leachate monitoring network	•			

1.2 Goal: We work together to reduce our impact on the natural environment and to adapt to climate change for a sustainable future.

1.2.3 Sustainable Agriculture

Responsible Officer: Unit Coordinator Sustainability and Environment

Our service goal

To support the regeneration of agricultural land through soil health, biodiversity, education, water quality and sustainability initiatives.

What we deliver

- Support the restoration and rehabilitation of farmland
- Community education, awareness and capacity building
- Policy development for sustainable agriculture
- Applied research and adoption of best practice

What we use to deliver

- 1 Council staff member has primary responsibility for providing this service
- Volunteers (5 hrs per week)
- Contractors are used to provide specialist input to specific projects

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26
1	Area of farmland with improved management practices because of the service (reporting annually)	Ha	>0	>0	>0	>0
2	Sustainable agriculture education and engagement initiatives	#	4	4	4	4

What it costs

1 Future Drought Fund grant project – Drought resilient beef and dairy farms in the Tweed	•			
2 Delivery of the Sustainable Agriculture Small Grants Program	•	•	•	•
3 Acid Sulfate Soil hotspot identification and remediation	•	•	•	•
4 Conduct annual Acid Sulfate Soil audit with Sunshine Sugar	•	•	•	•

Living

2. We want to be safe at home and in the community with reliable essential services and infrastructure

2.1 Provide safe, sustainable and affordable water supply and wastewater services as the foundations of a healthy community.

- > Water Supply
- > Wastewater Services
- > Tweed Laboratory

2.2 Deliver a safe and connected local road and active transport network that can accommodate increased traffic as our shire grows and connects people, places and businesses to each other.

- > Roads and Traffic
- > Footpaths and Cycleways

2.3 Make sure the places we live, work and visit are safe to protect our quality of life.

- > Animal Management
- > Building Certification
- > Compliance
- > Development Assessment
- > Development Engineering and Subdivision Assessment
- > Environmental Health

2.4 Work together with others to prepare for, mitigate and build resilience to both natural disasters and the impacts of climate change.

- > Floodplain Management
- > Local Emergency Management
- > Stormwater Management

2.1 Goal: Provide safe, sustainable and affordable water supply and wastewater services as the foundations of a healthy community.

2.1.1 Water Supply

Responsible Officer: Manager Water and Wastewater

Our service goal

To provide secure, high quality and reliable drinking water which meets health and environmental requirements.

What we deliver

- A high quality water supply service with minimal interruptions and complaints
- Community education and engagement to support water efficiency
- Planning and capital works to improve levels of service and cater for growth
- Water efficiency, augmentation and demand management
- Assessment of applications to extend and or connect to the water supply system

What we use to deliver

- 70 Council staff have primary responsibility for providing water supply services
- Major capital works such as upgrades of treatment plants are project managed by Council and undertaken by contractors

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26
1	Biological drinking water quality compliance	%	100	100	100	100
2	Total number of water quality complaints per year	#	<113	<114	<115	<116
3	Total number of service interruptions per year	#	<1,316	<1,330	<1,345	<1,356
4	Residential water consumption (litres per person per day)	#	160	160	160	160

(G) Information Systems				
1 Improve corporate systems configuration, processes and management reporting for water and wastewater business management needs	•	•	•	•
2 Continued development of field workforce mobile solution			•	•
3 Improve computer network, SCADA, associated systems and management	•	•	•	•
4 Improve other business systems and processes and apply Business Intelligence for improved interrogation and reporting to meet business needs	•	•	•	•
5 Improve engineering modelling, mapping and data analysis systems and tools	•	•	•	•
6 Investigate use of IOT smart monitoring/metering and intelligent communication networks for improved business and customer outcomes	•	•	•	•
7 Implement new Image Management System	•	•	•	•

2.1 Goal: Provide safe, sustainable and affordable water supply and wastewater services as the foundations of a healthy community.

2.1.2 Wastewater Services

Responsible Officer: Manager Water and Wastewater

Our service goal

To provide high quality and reliable sewage collection and treatment services that meet health and environmental requirements.

What we deliver

- A high quality wastewater service with minimal interruptions and impacts on the community
- Community education and engagement to support non potable water reuse
- Planning and capital works to improve levels of service and cater for growth
- Assessment of applications to extend and or connect to the wastewater system

What we use to deliver

- 70 Council staff have primary responsibility for providing wastewater services
- Small to medium sized projects are generally constructed by Council staff
- Major capital works such as upgrades of treatment plants are project managed by Council and undertaken by contractors

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Compliance with NSW Environmental Protection Authority licence requirements	%	100	100	100	100
2 Total number of service interruptions per year	#	<108	<109	<110	<111
3 Total number of odour complaints per year	#	<36	<36	<37	<37

2.1 Goal: Provide safe, sustainable and affordable water supply and wastewater services as the foundations of a healthy community.

2.1.3 Tweed Laboratory

Responsible Officer: Manager Water and Wastewater

Our service goal

To provide a cost effective, reliable, responsive and high quality water and soil testing facility.

What we deliver

- Testing water to ensure it is safe to drink
- Testing water and soil for assessment against environmental guidelines/standards
- Testing sewage to meet effluent license conditions
- Commercial user pays service to the public

What we use to deliver

- 12 Council staff have primary responsibility for providing this service using a council owned specialised laboratory

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Range of National Association of Testing Authorities (NATA) accredited tests that are available to customers	#	150	150	150	150
2 Time taken for reporting test results upon receipt of samples	days	10	10	10	10

What it costs

Significant projects/works

Project	2022/23	2023/24	2024/25	2025/26
(A) Tweed Laboratory Centre				
1 Building roof replacement		•		
2 Replacement Lab equipment: CPMS (Metal Testing) and FIA (nutrients testing)		•		•

2.2 Goal: Deliver a safe and connected local road and active transport network that can accommodate increased traffic as our shire grows and connects people, places and businesses to each other.

2.2.1 Roads and Traffic

Responsible Officer: Manager Roads and Stormwater

Our service goal

To provide and maintain a network of roads and bridges that is safe, efficient and accessible.

What we deliver

- Maintenance of transport infrastructure to required levels
- Transport network planning
- Advocate for increased public transport options and services in the Tweed

What we use to deliver

- Approximately 50 equivalent staff in the Roads and Stormwater Unit have responsibility for providing this and related services
- Contractors are used for:
 - consultant design and investigation
 - plant and material supply
 - traffic control
 - line marking

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Length of sealed road resurfaced/resealed	Km	50	50	50	50
2 Length of road renewed or upgraded	Km	6.7	9.0	5.5	6.7
3 Requests/complaints per annum*	#	<2,000	<2,000	<2,000	<2,000
4 Requests adequately responded to within target*	%	> 70%	> 70%	> 70%	> 70%
5 Number of scheduled meetings held with NSW Police, State Agencies and elected representatives to discuss traffic management issues	#	10	10	10	10

*From Transport Asset Management Plan

2.2 Goal: Deliver a safe and connected local road and active transport network that can accommodate increased traffic as our shire grows and connects people, places and businesses to each other.

2.2.2 Footpaths and Cycleways

Responsible Officer: Manager Roads and Stormwater

Our service goal

To provide and maintain a network of footpaths and cycleways that is safe, efficient and accessible.

What we deliver

- Maintenance of transport infrastructure to required levels
- Encouraging healthy and sustainable alternative transport options such as walking, cycling, and integrated public transport
- Transport network planning
- Advocate for a more equitable distribution of transport funding from other levels of government

What we use to deliver

- Approximately 50 equivalent staff in the Roads and Stormwater Unit have responsibility for providing this and related services
- Contractors are used for:
 - consultant design and investigation
 - plant and material supply
 - traffic control
 - line marking

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Length of new footpath and cycleway constructed by council	Km	1.5	1.5	1.5	1.5
2 Length of footpath and cycleway repaired/replaced	Km	1	1	1	1

What it costs

Importance – Bike Paths	70%
Satisfaction – Footpaths	67%
Satisfaction – Bike Paths	71%

Significant projects/works

Item				2022/23	2023/24	2024/25	2025/26
Projects							
1	Prepare Pedestrian and Bike Plan			•			
2	Implement footpath and cycleway works recommended by Pedestrian and Bike Plan				•	•	•
Capital works							
1	Banora Point	Laura Street	Anderson Street to Bentley Way	•			
2	Murwillumbah	Mooball Street	Rous Street to Mayal Street	•			
3	Tweed Heads	Enid Street	Florence Street to Frances Street	•			
4	Tweed Heads	Brett Street	corner Powell Street	•			
5	Bogangar	Banksia Avenue	corner Tweed Coast Road	•			
2023/24 and subsequent years programs are subject to finalisation of the Pedestrian and Bike Plan in 2022.							

2.3 Goal: Make sure the places we live, work and visit are safe to protect our quality of life.

2.3.1 Animal Management

Responsible Officer: Team Leader Rangers

Our service goal

To provide effective and responsible care, management and public education for companion animals such as pet dogs and cats.

What we deliver

- Animal seizure and impounding
- Rehoming
- Community Education

What we use to deliver

- 7 Council staff have primary responsibility for providing this service
- Volunteers also undertake approximately 120 hours per week
- Contractors provide veterinary services

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Re-homing rate of cats and dogs	%	95	95	95	95
2 Response times to 'dog on person' attacks	Hours	2	2	2	2
3 Response times to roaming or barking dogs	Hours	12	12	12	12
4 Increase in number of pet registrations	%	>0	>0	>0	>0

Project	2022/23	2023/24	2024/25	2025/26
1 Approvals and construction of a new Council Animal Pound and Rehoming Centre and ancillary Rangers and Animal Management services South Murwillumbah	•	•	•	•

2.3 Goal: Make sure the places we live, work and visit are safe to protect our quality of life.

2.3.2 Building Certification

Responsible Officer: Manager Building and Environmental Health

Our service goal

Control and regulate the built environment to achieve good housing design, and safe and compliant buildings.

What we deliver

- Development assessment in accordance with the NSW Planning framework, and Council Policies
- Building and technical advice
- Building and plumbing approvals and inspections for residential and commercial premises
- Community education and engagement on Council Policies, safety and sustainability considerations
- Safe building regulation including fire safety, dilapidated buildings, disability access or NSW Fire and Rescue reviews
- Swimming pool barrier certification and regulation (houses and multi residential)

What we use to deliver

- 8 equivalent full time (EFT) building surveyors, 2.6 EFT town planners and 1.4 EFT pool officers along with support staff have responsibility for providing this service

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26

2.3 Goal: Make sure the places we live, work and visit are safe to protect our quality of life.

2.3.3 Compliance

Responsible Officer: Team Leader Rangers

Our service goal

To support a safe and healthy built and natural environment through the enforcement of local government rules and regulations.

What we deliver

- Investigate development and building compliance issues
- Parking patrols
- Investigate and prosecute illegal dumping
- Preservation of trees or vegetation
- Overgrown land
- Vehicle permits for beaches

What we use to deliver

- 17 Council staff have primary responsibility for providing this service
- Contractors provide abandoned vehicle transport and storage services

How we measure

2.3 Goal: Make sure the places we live, work and visit are safe to protect our quality of life.

2.3.6 Environmental Health

Responsible Officer: Manager Building and Environmental Health

Our service goal

To support public health and environmental safety through education, inspection and enforcement of government rules and regulation.

What we deliver

- Protection of public health
- Food Premises Inspections (including “Scores on Doors”)
- Public Health monitoring (water quality, skin penetration premises)
- Environmental pollution investigations (air, noise, water, land)
- Environmental health assessment for Development Applications.
- Caravan Park Regulation
- Management of community markets and footpath dining
- On Site Sewage Management (OSSM) Program
- Pest Management incorporating invertebrate pests and rodents

What we use to deliver

- 9 Environmental Health, 3 On Site Sewage, 2.66 EFT pest management officers Management, plus administration officers provide this service

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26

2 On Site Sewage Management Strategy	•	•	•	•

2.4 Goal: Work together with others to prepare for, mitigate and build resilience to both natural disasters and the impacts of climate change.

2.4.1 Floodplain Management

Responsible Officer: Manager Roads and Stormwater

Our service goal

To manage the risk of flooding and its impacts for property owners and the community.

What we deliver

- Evaluate and respond to flood impacts associated with land use and development
- Design, construct and maintain flood protection assets such as floodgates, flood pumps and levees

What we use to deliver

- 3 Council staff have primary responsibility for providing this service
- Some farmers have signed volunteer agreements to monitor and assist in operating rural flood gates. Other rural landholders play an informal role in checking flood gates and reporting issues to Council
- Contractors provide specialist modelling, flooding studies and plant hire

How we measure

Key Performance Indicator	Measure	2022/23	2023/24	2024/25	2025/26
1 Scheduled inspections of all flood mitigation assets	#	2	2	2	2

2 Implementation of the Coastal Creeks Floodplain Risk Management Plan	•	•	•	•
3 Completion of the Tweed Valley Flood Study Update	•			
4 Implement Voluntary House Purchase (VHP) and Voluntary House Raising (VHR) Schemes	•	•	•	•
5 Develop and implement community awareness programs	•	•	•	•

2.4 Goal: Work together with others to prepare for, mitigate and build resilience to both natural disasters and the impacts of climate change.

2.4.2 Local Emergency Management

Responsible Officer: Enterprise Risk and Emergency Management Officer

Our service goal

To support strong and co-ordinated emergency services for the Tweed.

What we deliver

- Provide support to the Rescue and Local Emergency Management Committees
- Asset management of buildings accommodating emergency service organisations
- Maintenance of the Rural Fire District Service Agreement with the NSW Rural Fire Service
- Maintenance of the Memorandum of Understanding with the NSW State Emergency Services
- Community education

What we use to deliver

- 0.5 – Council staff has primary responsibility for providing this service

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26
1	Audit of state of Readiness of Emergency Operations Centres	#	1	1	1	1

2.4 Goal: Work together with others to prepare for, mitigate and build resilience to both natural disasters and the impacts of climate change.

2.4.3 Stormwater Management

Responsible Officer: Manager Roads and Stormwater

Our service goal

To efficiently capture and convey rainfall runoff and release it into the environment safely.

What we deliver

- Provide adequate stormwater drainage with new infrastructure works and developments
- Design, construct and maintain stormwater network assets

What we use to deliver

- Approximately 10 equivalent staff in the Roads and Stormwater Unit have responsibility for providing this and related services
- Contractors are used for:
 - specialist studies (e.g. drainage modelling)
 - contract material supply
 - contract traffic control
 - specialist services (e.g. vacuum trucks, aquatic weed removal, pipe relining, pipe jacking/directional drilling, underwater specialists)

How we measure

Key Performance Indicator		Measure	2022/23	2023/24	2024/25	2025/26

Our service goal

To create quality customer experiences and deliver excellent customer service so that it is easy to do business with Council..

What we deliver

- Customer Service/Contact Centre: Frontline customer service through our friendly Contact Centre team at two service centres at Tweed Heads and Murwillumbah. The Contact Centre aims to resolve 80% of customer enquiries at the first point of contact – in person, over the phone, via web chat and social media
- Digital Solutions: Online customer services through our 10 websites, including e-payments, reporting problems, emergency information and a range of web forms. Business system integration, customer and user experience audits and journey mapping; Digital marketing screens and kiosks

What we use to deliver

- 20.5 staff (17.5FTE) have primary responsibility for providing this service
- Contract agreements support:
 - after hours services
 - content management system (websites)

1 Develop a Customer Experience Strategy/Digital Transformation Action Plan to identify and guide future projects that will improve the way Council provides services to the Tweed community	•			
2 Review and adopt an improved Service Experience Standards Policy, within 12 months of 2021 election	•			
3 Implement a Voice of the Customer (VoC) Program and satisfaction measurement solutions for Council services	•			
4 Deliver web-form project to move to transition to web-forms and remove paper-based/PDF and inaccessible forms so that it is easy to do business with Council	•			
5 Review Tweed Emergency Dashboard solution and consider options and enhancements			•	
6 Implement a Customer Relationship Management system			•	

4.3 Goal: Support Council services, programs and operations to be effective and transparent.

4.3.1 Construction Services

Responsible Officer: Manager Infrastructure Delivery

Our service goal

To manage the construction of Council assets such as transport, drainage, water supply and other infrastructure.

What we deliver

- Efficient, high quality construction to meet community needs
- Project and Construction Management Services

What we use to deliver

- 78 Council staff have primary responsibility for providing this service
- Contractors are used for:
 - Traffic control services
 - Hire plant and haulage trucks
 - Various civil and building constructions

Financials

Long-Term Financial Plan

Council's Long Term Financial Plan (LTFP) has been developed in accordance with organisational needs and in compliance with the requirements of the Integrated Planning and Reporting Framework of the Department of Planning and Industry (previously the Office of Local Government).

Council's LTFP contains a set of long range financial projections and statements based on an informed set of assumptions concerning Council's budget. It is designed to show the incremental financial impacts on Council's Budget of providing different levels of service and asset delivery. In addition to the expenditure based analysis, the Plan also demonstrates the financial impact on Council's finances from programs of borrowings and alternate funding sources.

Council's current LTFP covers a 10 year time frame from 2022/23 to 2031/32.

The LTFP is a necessary document to assist Council with its process of financial sustainability by documenting, planning and analysing the long term financial impacts on Council's operations from different financial scenarios. A financially sustainable council is one that can meet its funding requirements relative to the provision of its services; this includes the maintenance, renewal and replacement of required assets without operating in deficit for sustained periods of time, without imposing excessive debt on current or future generations and without unplanned rate revenue increases.

The strategic long term financial sustainability aim of Council is to:

- continue its financial sustainability over the long term while at the same time delivering needed services and infrastructure in response to the community's priorities, as identified in Council's Community Strategic Plan
- generate additional funding where possible to address community service priorities as defined by Council's strategic actions and the community survey results and provide improvements to Council assets as identified.

Accordingly, the LTFP is Council's long term financial mechanism to deliver to a financially sustainable platform of services and infrastructure. The LTFP can be viewed on Council's website at tweed.nsw.gov.au

Asset Management

Council manages infrastructure on behalf of the community or government. Once created, infrastructure assets generally have long lives, but by their very nature generate ongoing responsibilities and challenges.

Council is confronted by significant issues such as:

- how to meet the increasing demand for new and upgraded infrastructure
- how to retrofit infrastructure to address non-existent, deficient or substandard infrastructure
- how to prolong the life or renew existing infrastructure
- how to pay for it and the associated life cycle costs of maintenance, servicing, renewal, reconstruction
- the effect of ageing infrastructure and reduced funding as a result of rate pegging, cost shifting and escalating costs.

In addition to the creation and or retrofitting of assets, annual maintenance programs are directed towards retaining adequate levels of serviceability of assets but keeping assets to desirable standards is one of local government's biggest financial challenges.

Council has developed an Asset Management Strategy for each asset class to outline:

- Council's current position with respect to Asset Management practice
- Council's future needs with respect to Asset Management practice
- a current maturity level with respect to the Council's position to manage infrastructure assets.
- a series of Action Plans on how the Council intends to achieve future needs.
- Performance Monitoring Processes.

The Asset Management Strategy can be viewed on Council's website at tweed.nsw.gov.au

Revenue Policy – 2022/23

The Revenue Policy and Statement is a key component of the functionality of the Operational Plan and lists Council's Fees and Charges for 2022/2023, including all areas that support the generation of Council's income.

The revenue categories include:

- Rates
- Annual charges for services
- Fees for services
- Commonwealth and State Government grants
- Earnings from investments and entrepreneurial activities
- Borrowings
- Other revenues, including income from the sale of assets.

The Revenue Policy can be viewed at Council's website on tweed.nsw.gov.au

2022/2023 Budget Summary

The 2022/2023 budget has been prepared using the previous year's Long Term Financial Plan as a base, adjusted for known variations and new demands.

The \$250 million budget is made up of 3 funds:

General	\$150 million
Sewer	\$49 million
Water	\$51 million

Note: The capital works and associated funding is based on pre-March 2022 flood event programming. As a result of the amount of post-flood infrastructure rebuilding works ahead for Council, the identified capital works may be subject to change.

Income and Expenditure Commentary

Rates and annual charges

For 2022/23, the Independent Pricing and Regulatory Tribunal (IPART) has set the rate peg at 1.7% (0.7% + 1.0% growth) for Tweed Shire Council.

According to IPART, "The rate peg is mainly based on the Local Government Cost Index (LGCI), which measures price changes over the past year for goods, materials and labour used by an average council."

For further detail, refer to Council's Revenue Policy.

Note: An above pegging increase of 2.35% (4.35% in total increase) has been budgeted for in the 2023/24 financial year

User charges and fees

Generally, user charges and fees have been set to increase by CPI, although there are exceptions where individual fees have been assessed and will increase at a different rate. Some fees are prescribed by the State Government, with Council having no discretion in the setting of those fees.

For further detail, refer to Council's Fees and Charges document.

Interest and investment revenue

Council's estimated interest investment revenue for 2022/2023 is \$5.7 million.

Interest on overdue rates, charges and deferred debts is budgeted at \$334,000

Council's diversified portfolio of bonds, term deposits and floating rate notes is managed in-house with the goal of maximising returns whilst maintaining a minimal level of risk and complying with the State Government's Ministerial Order.

Over 90% of invested funds are restricted and not available for general expenditure. Major restrictions are Water, Sewer, Waste and Holiday Park funds, developer contributions, reserves, and unexpended loans and grants.

Grants and contributions revenue

A conservative approach has been taken when budgeting for grants and contributions revenue. The Financial Assistance grant of \$11.3 million is forecast to grow at 1% per year. Over many years this grant has proven impossible to predict.

Generally, only known future grants are included in the forward projections, with the exception of grants which have been reliably received over a long period of time. For the first time this year, provision in the roads budget had been made for future unconfirmed grants. The related expenditure budgets are noted as being conditional upon the grants being confirmed.

Developer contributions are assumed to generally remain static. This income is held as a restricted asset until recouped to fund projects and/or debt servicing of past projects.

Employee costs

As at March 2022, Council employed over 700 full time equivalent staff.

Employee-related costs, which include salaries, entitlements, insurance, taxes, travel and training costs, are estimated to be in the region of \$69 million.

It is assumed that employee costs will grow at a rate of between 2.5% and 2.75% over the next 10 years. This includes anticipated award and superannuation increases and growth through salary progression.

Borrowing costs

Council's loan portfolio of \$126 million generates an interest expense of \$8.4 million per year, progressively reducing as the overall debt is paid down over time.

The annual borrowing program averages around \$2 million, and focuses on renewing major infrastructure such as bridges and stormwater drainage, as well as flood mitigation works and public toilet renewals. It is anticipated that over time the annual borrowing program will be reduced, as major bridge and drainage upgrades are completed.

The 2022/23 Budget includes a one-off \$4 million dollar loan to fund the Animal Rehoming Facility.

Principal repayments total \$7.1 million.

Reserves

Council has a number of reserves which represent cash that is restricted for a specific purpose, usually to fund future expenditure.

Major transfers to reserves are:

Holiday Parks surplus	\$1.5m
Waste	\$3.5m
Water	\$9.2m
Sewer	\$13.5m

Major transfers from reserves are:

Waste	\$2.7m
Water	\$6.4m
Sewer	\$5.0m

Major Capital Expenditure items 2022/23

Capital expenditure totalling \$45 million is included in the budget. Major items are:

Voluntary purchases (flood mitigation)	\$1.0m
Waste depot	\$3.2m
Clarrie Hall Dam	\$3.4m
Bray Park Water Treatment Plant	\$4.5m
Uki Water Treatment Plant	\$1.4m

Capital Works

Council's Capital Works program for 2022/23 is \$63.7m including major works on roads, drainage, waste facilities, water and sewerage.

Note: The capital works and associated funding is based on pre-March 2022 flood event programming. As a result of the amount of post-flood infrastructure rebuilding works ahead for Council, the identified capital works may be subject to change.

Financial Assistance Contributions to the Community

Tweed Shire Council provides financial assistance contributions to the community via the following Policies:

Donations (Financial Assistance)

Tweed Shire Council recognises a need to assist community organisations and individuals that are interested in and working towards the enhancement and the wellbeing of its residents. Council advertises twice yearly in the Tweed Link inviting applications under its Donations (Financial Assistance) Policy. A panel comprising two senior Council officers and the Mayor reviews applications to determine eligibility and make recommendations to Council.

Festivals and Events Policy

The Tweed Community Strategic Plan identifies the vision for the Tweed is to be recognised for its desirable lifestyle, strong community, unique character and environment and the opportunities its residents enjoy. Events of all shapes and sizes contribute to achieving that vision through supporting community life, strengthening the economy and promoting caring for the environment.

The provision of financial assistance and in kind support to festivals and events supports the overall aims of Council and those objectives identified in Council's Events Strategy. Applications are assessed in relation to the Events Strategy and Council's broad objectives and plans. In kind support from Council can include: the loan of equipment, assistance with services to events held on Council administered land and assistance to events with notifications to residents and promotions through the Tweed Link and the Contact Centres.

Tweed Local Heritage Assistance Fund

As part of Council's ongoing heritage management, Local Heritage Assistance Fund grants are available for owners of heritage items and properties within a heritage conservation area listed in the Tweed Local Environmental Plan (LEP).

Grants operate on a financial year timeframe.

Financial Assistance to Licensed Not for Profit Native Animal Welfare Groups

This policy establishes principles to enable financial assistance, on an annual basis, to be provided to licensed not for profit groups who provide care and rehabilitation to injured native wildlife. Consideration is given to the allocation of funding in accordance with the number or variety of native species that each group is licensed to provide assistance. As an indication, base line funding for the care and rehabilitation of one species may commence at \$2,500 per annum, to a maximum of \$5,000 per annum to groups licensed in providing services to more than one native species.

The total value of financial assistance planned for 2022/23 is summarised in the below tables:
