

#### THE INDEPENDENT PRICING AND REGULATORY TRIBUNAL OF NSW

## APPLICATION FOR A SPECIAL VARIATION TO GENERAL INCOME

Under Section 508A of the *Local Government Act 1993* 2014/15

# SECTION 508A APPLICATION FORM PART A (Updated 10 April 2014)

Before completing this form, you MUST read the Division of Local Government's

Guidelines for the preparation of an application for a special variation to general income

Guidelines are available on the Division's website at www.dlg.nsw.gov.au.

**NOTE:** This part of the application must be completed in conjunction with Part B (Special Variation Application Form 2014/15 - Part B)

#### Instructions

Section 508A allows a council (you) to increase general income by a percentage that is greater than the rate peg each year, up to a maximum of 7 years. You must identify the percentage increase requested for each year inclusive of the rate peg. You must also identify percentage increases in minimum rates for each year, if the increases exceed the statutory limit.

Note: IPART can approve a percentage increase to minimum rates above the statutory limit that differs from the special variation percentage increase as long as you have justified and properly consulted on that percentage. See Attachment 4 of the Guidelines for further details.

Both Part A and Part B of the application should be submitted to IPART (us) via the Council Portal on our website at www.ipart.nsw.gov.au. A hardcopy should also be forwarded to us (see Guidelines for details).

Part A consists of 7 worksheets:

- ► Worksheet 1 (Identification): Identifies your council and a council contact officer, collects information on any special variations (SVs) due to expire and summarises the cumulative impact of the SV and the impact on minimum rates.
- ► Worksheet 2 (current year Notional General Income): Calculates your Notional General Income for the current year (year 0 in the application, 2013/14).
- ▶ Worksheet 3 (first year Notional General Income): Calculates your proposed Notional General Income for next year (year 1 in the application, 2014/15).
- ▶ Worksheet 4 (Calculation): Calculates your Permissible General Income based on the 1st year SV percentage and Crown land adjustments, plus other income adjustments in 2014/15.
- ► Worksheet 5a (Impact on Rates 1): Calculates the average annual and cumulative increase in rates for each category/sub-category for each year of the SV, with and without the SV.
- ▶ Worksheet 5b (Impact on Rates 2): Collects the assessment numbers in the 3 main ordinary rate categories for different land values in year 1 and the proposed rates across this distribution (ie, midpoints of each land value range) for each year of the SV.
- ▶ Worksheet 6 (Additional SV Income and Expenditure): Collects how you intend to use the additional funds (above the rate peg) from the SV.

Step-by-step instructions on completing the worksheets are provided below.

#### Worksheet 1 - Identification

- ▶ Select the date for the first year of the application (M3).
  - Selecting the date from the drop down list, automatically populates the date fields on Worksheet 1 (WK1), WK5 and WK6.
- ▶ Select the requested no. of years (2 to 7) of income increases in the application (K16).
- ▶ Answer the questions about expiring SVs (K17 to K22).
  - ▷ If the council does not have any SVs due to expire in the period of the requested SV and the answer is "No" in K17, leave other fields in this section blank.
- ▶ Enter the rate peg for 2014/15 in E34 as announced by us in late 2013.
  - ➤ The worksheet automatically assumes a rate peg of 3% for each of the forward years. (If the rate peg turns out to be different from that assumed, the % increase in general income with an approved SV does not change.)
- ▶ The percentage increase in general income needed in year 1 of the application (D34) will automatically populate from WK4 (F23) when it is completed.
  - The cumulative increase in general income due to the SV inclusive of the rate peg will populate automatically in WK1.
- ▶ Refer to WK4 to enter in any deduction for an SV which is due to expire on 30 June 2014 in the calculation of permissible general income in year 1.
  - > This dollar amount is linked to cell E46 in this worksheet.
  - > This amount needs to be verified by the DLG before the application is submitted to us.
- ▶ Enter the requested percentage increases in general income (inc. rate peg) from year 2 (D35 to D40).
  - ▷ The annual and cumulative increases in permissible general income will populate once WK2, WK3 and WK4 have been completed.
- ▶ Enter in the value of any expiring variation from year 2 (2015/16) if it is due to expire at the end of any financial year within the period of the requested SV (E47 to E52).
  - > Any amount needs to be verified by the DLG before the application is submitted to us.
  - ➤ The other Permissible General Income calculations will populate automatically when WK4 is completed.

#### Worksheet 2 - Notional General Income 2013/14

This worksheet calculates the Notional General Income for the previous year, by applying the rating structure used in the previous year to land values, adjusted by supplementary valuations received during that year. The calculations should be checked with DLG before applying to us.

Any inclusion in WK2 as a "supplementary valuation" must agree with Section 4 of the valuation of Land Act 1916.

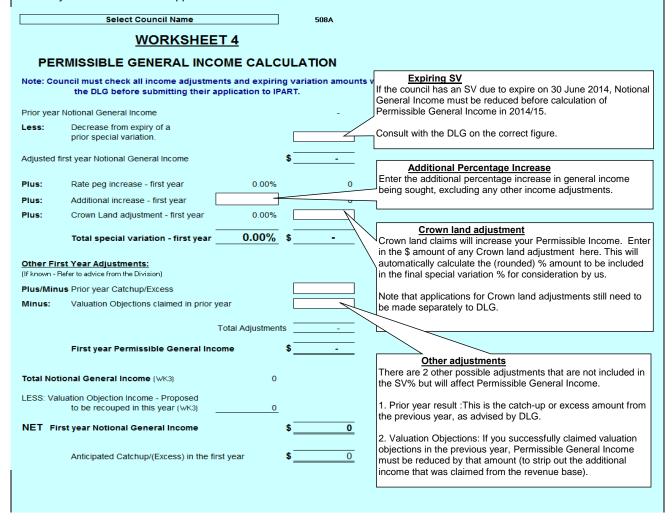

#### Worksheet 3 - Notional General Income 2014/15

This worksheet calculates the proposed Notional General Income. It should apply the rating structure, including the proposed SV increase, to land values adjusted by supplementary valuations received during the year.

The rating structure entered here must be checked by the DLG and reflect the Draft Operational Plan.

#### Worksheet 4 - Calculation

This worksheet calculates Permissible General Income and the value of the proposed SV after taking into account various adjustments. Income adjustments and expiring SV amounts are to be verified by the DLG before the application is submitted to us.

#### Worksheet 5a - Impact on Ratepayers (part 1)

This worksheet is designed to show the minimum rate increases with the proposed SV, and the average rate increase per sub-category (ordinary and special rates), with and without the proposed SV. It also shows the increases in annual charges over the period of the variation.

All shaded areas on this schedule will calculate automatically from the data entered.

#### Ordinary and Special Average Rates

Enter in the average rates per sub-category as if the SV were not approved (only the rate peg would then apply) AND the average rates as if the SV were approved as requested.

#### **Annual Charges**

Enter any proposed annual charges for each year of the proposed variation.

#### Note:

- Average rates equal total income in a category or sub-category divided by the number of assessments in that same category or sub-category.
- 2. Rates should be reduced for any expiring SVs so that the net change in rates is measured.

#### Worksheet 5b - Impact on Ratepayers (part 2)

This worksheet shows the distribution of ordinary rates across different land values and how different (ordinary) ratepayers will be impacted by the proposed SV, depending on the value of their land.

Enter the number of assessments in the ordinary rating categories (residential, business farmland, mining) across various land value ranges in 2014/15, and the rate levels across different land values in each year of the application, with and without the proposed SV.

If you have had a general revaluation of land during the prior year this spreadsheet will not accurately refect the impact on ratepayers in year 1. We will take this into account when using this worksheet. Please complete the tables using the number of assessments from the first year of the SV (2014/15).

#### Worksheet 6 - Proposed Additional SRV Income and Expenditure

This worksheet is designed to show how the council proposes to use the additional funding above the rate peg generated from the SV.

\* This worksheet is not protected to allow the council flexibility to add or delete rows.

The worksheet automatically calculates additional SRV income in Years 1 and 2. Councils must complete the additional SRV income rows for years 3 to 10.

Councils must enter each category of expenditure, and if applicable, individual program/project names, in column C under one of the headings provided.

The spreadsheet will calculate the difference between the additional income from the special variation and what it is spent on. A positive difference means that the additional income is not all spent on opex or capex.

\* Part B of the application provides councils with the opportunity to explain their expenditure plans and the impacts on their financial position.

Enquiries regarding the completion of this application should be directed to:

#### APPLICATION FOR SPECIAL VARIATION TO GENERAL INCOME COMMENCING IN

## Section 508A - Part A WORKSHEET 1

2014/2015

Council Name:	Weddin Shire Council
Contact Details:	
Name:	Lachlan Gibson
Position:	Director of Corporate Services
Telephone:	(02) 6343 1212
Fmail:	lachlan@weddin nsw gov au

#### **Expiring special variations (SVs)**

- 1. For how many years is the council requesting % increases as part of this application?
- 2. Does the council have any existing special variations due to expire over this period?

If so, the amounts of expiring special variations must be entered in WK4 and/or cells E46 to E51 below.

	4 years
No	

#### Requested annual percentage increases

Any special variation % increase for a given year approved by IPART is the total increase permitted in

a council's general income, before adjustments are made for catch ups/excesses and valuation objections.

Note: Approved SV% increases do not change if the actual rate peg turns out to be different from that assumed for a particular year.

		Annual %		Cumulative % increase					
		SV (inc. rate	Rate peg	SV (inc.	Rate peg	Above the			
		peg)	peg) only		only	rate peg			
Y 1	2014/15	7.00%	2.30%	7.00%	2.30%	4.70%

## **WORKSHEET 2**

## **Calculation of Notional General Income-2013/14**

#### Applicable to the first year of the application

This worksheet must reflect the rating structure levied in the previous year

(NOTE: Valuations used here are to be taken from Council's valuation list on 1 July of the above year and are to include supplementaries having the same base date and furnished to Council during that year and estimates of increases in valuations provided to the Council under section 513)

## **WORKSHEET 5a**

## IMPACT ON MINIMUM RATES, AVERAGE RATES AND OTHER CHAR

The aim of this sheet is to show the minimum rate increase (if applicable), the average rate increase per sul (inclusive of all relevant rates) and the proposed annual charges in each year of the proposed special varial It also aims to compare average rates with and without the proposed special variation.

All ordinary rates and special rates need to be included.

Note: rate estimates should reflect expected minimum or average rates, inclusive of any expiring var

#### Minimum Rates - with proposed special variation

If the council levies minimum rates and proposes to set minimum amounts above the statutory limit for any car or sub-category, these rates should be detailed below. The % increase in ordinary minimum rates should be special variation increase in each year unless a separate minimum rates application is submitted.

			Or	dinary an	d Special	Rates - v	with spec	ial variat	ion

## **WORKSHEET 5b**

#### IMPACT ON DIFFERENT ORDINARY RATE LEVELS

The aim of this sheet is to show the impact of the proposed increases on different rate levels in the main ordinary rate categories (residential, business and farmland categories - as applicable).

This worksheet must include the number of property assessments within each of the specified land value ranges. It must also include the estimated rate levels for the specified land values (eg \$50,000) over the period of the proposed special variation - both with and without the variation.

Note: rate estimates should reflect expected actual rates, inclusive of any expiring variations.

Has the council had a general land revaluation in Year 0?: No

#### Ordinary Residential Rates - with proposed special variation
