

#### THE INDEPENDENT PRICING AND REGULATORY TRIBUNAL OF NSW

# APPLICATION FOR A SPECIAL VARIATION TO GENERAL INCOME

Under Section 508(2) of the Local Government Act 1993 2014/15

# SECTION 508(2) APPLICATION FORM PART A

Before completing this form, you MUST read the Division of Local Government's

Guidelines for the preparation of an application for a special variation to general income

Guidelines are available on the Division's website at www.dlg.nsw.gov.au.

**NOTE:** This part of the application must be completed in conjunction with Part B (Special Variation Application Form Part B - 2014/15)

#### Instructions

Both Part A and Part B of the application are designed to be completed on your computer and then submitted using the portal on our website at: <a href="http://www.ipart.nsw.gov.au/Home/Industries/Local\_Govt">http://www.ipart.nsw.gov.au/Home/Industries/Local\_Govt</a>

This part of the application (Part A) consists of six worksheets:

- ▶ Worksheet 1 (Identification): Identifies the council making the application and a council contact officer, collects information on expiring variations and the term of the proposed variation and provides a summary of the variation based on WK4 calculations.
- ► Worksheet 2 (current year Notional General Income): Calculates the council's Notional General Income for the current financial year 2013/14.
- ► Worksheet 3 (Notional General Income): Calculates the council's proposed Notional General Income for year 1 in the application, ie. 2014/15.
- ▶ Worksheet 4 (Calculation): Calculates the council's Permissible General Income based on the input of the special variation percentage, Crown land adjustments and other adjustments to income in 2014/15.
- ▶ Worksheet 5 (Impact on Rates): Calculates the average increase in rates and charges in each sub-category, with and without the proposed special special variation. Also collects the assessment numbers in ordinary rate categories for different land values and the proposed rate levels across this distribution in 2014/15.
- ► Worksheet 6 (Expenditure Program): Collects how the council intends to use the extra funds that will be gained by the special variation.

Detailed instructions on how each of these worksheets must be completed are provided below.

#### Worksheet 1 - Identification

- ▶ Select your council name from the drop down list.
- ► Enter contact details for the responsible officer.
- ► Enter details of any existing special variation due to expire on 30 June 2014 or the council's preference for another variation to expire earlier than the approved expiry date.
- ► Enter any details as requested regarding expiring existing special variations in the Expiring Special Variation section. Note that any expiring amount needs to be verified by DLG.
- ▶ The other calculations in this worksheet (including the special variation percentage) will be generated once worksheets 2-4 are correctly completed by the council.

#### Worksheet 2 - Notional General Income for current year

This worksheet calculates the Notional General Income for the previous year, by applying the rating structure used in the previous year to land values, adjusted by supplementary valuations received during that year. The calculations are to be checked with the DLG before this application is submitted to IPART.

Land values should be adjusted to reflect changes resulting from supplementary valuations received during the previous year. Any inclusion in this worksheet as a "supplementary valuation" must agree with Section 4 of the *Valuation of Land Act 1916.* 

### Worksheet 3 - General Notional Income for next year

This worksheet calculates the proposed Notional General Income. It should apply the rating structure, including the proposed special variation increase, to land values adjusted by supplementary valuations received during the previous year.

The rating structure entered here must be checked by the DLG and reflect the Draft Operational Plan.

#### Worksheet 4 - Calculation

This worksheet calculates the Permissible Income based on the proposed special variation, after taking into consideration various adjustments. Expiring variation and income adjustments need to be verified by the DLG before the application is submitted to IPART.

#### PERMISSIBLE GENERAL INCOME CALCULATION

Note: Council must check all income adjustments and expiring variation amounts with the DLG before submitting their application to IPART.

0.00%

Prior year Notional General Income

Less: Decrease from expiry of a prior special variation

Adjusted first year Notional General Income

Plus: Rate-peg % increase

Additional special variation % increase Plus:

Crown Land adjustment

Total special variation %

Other First Year Adjustments:

Plus/Minus Prior year Catchup/Excess

Prior year Valuation Objections Minus:

Total Adjustments (excluding Crown land adjustments)

2014/15 Permissible General Income

Total Notional General Income (WK3)

LESS: Valuation Objection income to be recouped in 2014/15 (WK3)

Net 2014/15 Notional General Income Yield

Anticipated Catchup/(Excess) 2015/16

Valuation Objection income to be recouped in 2014/15

Enter in the estimated amount of valuation objection income to be recouped in 2014/15. This is deducted from the total general income yield for 2014/15 to calculate the net income yield.

The anticipated catch up/excess amount in 2015/16 is the difference between the estimated net yield in 2014/15 and permissible general income.

#### **Expiring Special Variation**

If the council has an expiring special variation in the first year of this application (such that it is due to expire on 30 June 2014), Notional General Income must be reduced before calculation of the Permissible General Income in 2014/15.

Consult with the Division of Local Government on the correct figure before submitting the application to IPART.

#### Rate Peg Percentage

Enter the percentage figure announced by IPART in 2013.

Additional Percentage Increase
Enter the additional percentage increase in general income being sought by the council, excluding any other income adjustments.

Crown land adjustment
Crown land claims will increase your Permissible Income. Enter in the \$ amount of any Crown land adjustment here. This will automatically calculate the % amount to be included in the final special variation % for consideration by IPART.

Note that applications for Crown land adjustments still need to be made separately to DLG.

#### Other adjustments

There are 2 other possible adjustments that are not included in the final special variation % but which will affect Permissible General

- 1. Prior year result: This is the catch-up or excess amount from the previous year, as advised by the Division.
- 2. Valuation Objections: If you successfully claimed valuation objections in the previous year, Permissible General Income must be reduced by that amount (to strip out the additional income that was claimed from the revenue base). Check this figure with DLG.

### Worksheet 5 - Impact on Rates

This worksheet is designed to show the average rate increase per sub-category for ordinary and special rates, with and without the proposed special variation.

It also shows the distribution of ordinary rates across different land value ranges and how different (ordinary) ratepayers will be impacted by the proposed special variation in 2014/15, depending on the value of their land.

All shaded areas on this schedule will populate automatically from data entered in either Worksheet 3 (next year Notional General Income) or in the white cells in this sheet.

Councils **must** enter in both the average rates per sub-category if the special variation is not approved (so that only the rate peg increase would apply) AND the average rates if the special variation was approved as requested.

Councils **must** also enter the number of assessments in the ordinary rating categories (residential, business and farmland) across various land value ranges in 2013/14, and the rate levels for different land values in 2013/14, and for 2014/15 with and without the proposed special variation.

#### Note:

- 1. Average rates equal the total income generated by a category or sub-category of rates divided by the number of assessments in that same category.
- 2. Rate levels should include any expiring variations.
- 3. An error message of **#VALUE!** or **#DIV/0!** in any of the cells may indicate:
  - Main category name not selected on Worksheet 3
  - An incomplete rating structure entered on Worksheet 3
  - No average rate data in column D.

### Worksheet 6 - Proposed Additional SRV Income and Expenditure

This worksheet is designed to show how the council proposes to use the additional funds generated from the special variation above the rate peg.

\* This worksheet is not protected to allow the council flexibility to add or delete rows.

The worksheet automatically calculates the additional SRV income in 2014/15 (Year 1). Councils must complete the additional SRV income rows from years 2 to 10.

Councils must enter each category of expenditure, and if applicable, individual program/project names, in column C under one of the headings provided.

The spreadsheet will calculate the difference between the additional income from the special variation and what it is spent on.

\* Part B of the application provides councils with the opportunity to explain their program of expenditure and the associated impacts on their financial position in more detail.

Enquiries regarding the completion of this application should be directed to:

#### **WORKSHEET 5**

The aim of this sheet is to show the average rate increase in 2014/15 in each rating category and sub-category. It also compares average rates with and without the proposed special variation, and shows the impact of the

proposed increases on different rate levels in the main ordinary rating categories.

All ordinary rates and special rates must be included for the average rate calculations, even if the SRV percentage does not apply.

Note: All rate estimates should reflect expected rates (average or actual), inclusive of any expiring variations.

Impact on Average Ordinary Rates

		Current Average Rate		Annual \$	Annual %	Average rates in 2014/15	Annual \$	Annual %

Has the council had a general land revaluation in Year 0?: Yes

Where a council has received a general land revaluation in the current year, the increase in rates between between the current year and Year 1 in the tables below will not be indicative of ratepayer impact. Please complete the tables using the number of assessments from the first year of the special variation period (Year 1) in the columns for year 1 only (year 1 with and without special variation).

#### Impact across the Ordinary Rates Distribution

# **WORKSHEET 6**

### PROPOSED ADDITIONAL SPECIAL VARIATION INCOME AND EXPENDITURE

This sheet shows how the council proposes to use the additional income from the special variation.

Enter the change in operating balance (excluding capital items) and proposed spending over 10 years under each of the headings as relevant.

Add or delete rows if necessary.

For additional SRV income in years beyond the period of the special variation, use the same level of income as in the final year of the variation.

			Propos	sed Additi	onal Spec	ial Variatio	n Income	and Expe	nditure		
	Year 1 2014/15	Year 2 2015/16	Year 3 2016/17	Year 4 2017/18	Year 5 2018/19	Year 6 2019/20	Year 7 2020/21	Year 8 2021/22	Year 9 2022/23	Year 10 2023/24	Sum of 10 years
