Community Working Group meets for the 1st time

A central element of our Rates and Services Review is the Community Working Group, a randomly selected representative sample of the Canterbury community. We are exploring options for the range and level of services, and the means to fund these, in a series of conversations with the group. The first meeting of the Community Working Group was held on Thursday 1 August 2013. [View the outputs from the first meeting.](#)

The group developed a list of questions about council rates and services, and we prepared answers to these questions for discussion at the next meeting. [Read the questions and answers.](#) What questions do you have about council rates and services?

The next meeting of the group will be held on Tuesday 20th August 2013.

Rates and Services Review starts

In July 2013 we started the 2013 Rates and Services Review by sending out a Fact Sheet with rates notices. If you haven't seen this, you can [get a copy from the Fact Sheets Library.](#)

Increases in population over the past five years, and expected in the future, and more up-to-date forecasts of the cost of improving our infrastructure mean we will not have enough income in future years to continue to deliver the same range and level of services.

We are undertaking the review to explore options for the range and level of service that council provides, and the means to fund these.

What questions do you have about council rates and services?

A central element of our Rates and Services Review is the Community Working Group, a randomly selected representative sample of the Canterbury community. We are exploring options for the range and level of services, and the means to fund these, in a series of conversations with the group.

At their first meeting the group developed a list of questions about council rates and services, and we prepared answers to these questions for discussion at the next meeting. [Read the questions and answers.](#)

What questions do you have about council rates and services?

by davidco 09 aug 2013, 02:09 pm | 2 views

What council services do you think are most important for the future of Canterbury?

In July 2013 we posted out the 2013 Rates and Services Review Fact Sheet with rates notices (if you haven't seen it, you can get a copy from the Fact Sheets Library). The starting point for the Rates and Services Review is the vision our community has for the future of the City of Canterbury, which is outlined in our Community Strategic Plan (you can get a copy of this from the Integrated Plans Library).

During the preparation of the Community Strategic Plan, people told us their priorities for the future of the City of Canterbury were better roads, less traffic congestion, good parks and gardens, balanced development, a cleaner Cooks River, better shopping, and a cleaner, safer, and greener City.

What council services do you think are most important in achieving these priorities?
