# Preliminary

## 1 Background

- (a) Section 11 of the *Independent Pricing and Regulatory Tribunal Act 1992* (NSW) (**IPART Act**) gives the Independent Pricing and Regulatory Tribunal (**IPART**) a standing reference to conduct investigations and make reports to the Minister on the determination of the pricing for a government monopoly service supplied by a government agency specified in schedule 1 of the IPART Act.
- (b) A 'water supply authority' within the meaning of the *Water Management Act 2000* (NSW) is specified as a government agency in schedule 1 of the IPART Act. The Wyong Shire Council (**Council**) is a water supply authority under the *Water Management Act 2000* (NSW).
- (c) The services which, if supplied by the Council, are declared to be government monopoly services under the *Independent Pricing and Regulatory Tribunal (Water, Sewerage and Drainage Services) Order 1997* (**Order**) are:
  - (1) water supply services;
  - (2) sewerage services;
  - (3) stormwater drainage services supplied by the Council in its capacity as a water supply authority;
  - (4) trade waste services;
  - (5) services supplied in connection with the provision or upgrading of water supply and sewerage facilities for new developments and, if required, drainage facilities for such developments;
  - (6) ancillary and miscellaneous customer services for which no alternative supply exists and which relate to the supply of services of a kind referred to in paragraphs (1) to (5) above; and
  - (7) other water supply, sewerage and drainage services for which no alternative supply exists,(together, the **Monopoly Services**).
- (d) Accordingly, IPART may determine the prices for the Monopoly Services.
- (e) In investigating and reporting on the pricing of the Monopoly Services, IPART has had regard to a broad range of matters, including the matters in section 15(1) of the IPART Act.

- (f) In accordance with section 13A of the IPART Act, IPART has, in this determination, fixed maximum prices, or set a methodology for fixing maximum prices, for the Monopoly Services other than the Development Services. Reasons for the use of a methodology, as required by the IPART Act, are set out in schedule 6.

## 2 Application of this determination

- (a) Under section 11 of the IPART Act, this determination fixes the maximum prices or sets a methodology for fixing the maximum prices that the Council may levy for the Monopoly Services other than the Development Services.
- (b) This determination commences on the later of:
  - (1) 1 July 2013; and
  - (2) the date that it is published in the NSW Government Gazette, (**Commencement Date**).
- (c) The maximum prices set out in, or calculated in accordance with, this determination apply from the Commencement Date to 30 June 2017. The maximum prices prevailing at 30 June 2017 as set out in, or as calculated in accordance with, this determination continue to apply beyond 30 June 2017 until this determination is replaced.
- (d) Under section 18(2) of the IPART Act, the Council may not fix a price below that set out in, or as calculated in accordance with, this determination without the Treasurer's approval.

## 3 Replacement of Determination No. 2, 2009 and Determination No. 5, 2009

- (a) In May 2009, IPART issued Determination No. 2, 2009, which set out the maximum prices for various Monopoly Services supplied by the Council for the period from 1 July 2009 to 30 June 2013.
- (b) In July 2009, IPART issued Determination No. 5, 2009, which relevantly set out the maximum prices for other Monopoly Services supplied by the Council, being Water Supply Services supplied by the Council to Hunter Water Corporation, for the period from the date of gazettal<sup>1</sup> to 30 June 2013.
- (c) This determination replaces:
  - (1) Determination No. 2, 2009; and
  - (2) Determination No. 5, 2009 to the extent that it set out the maximum prices for Water Supply Services supplied by the Council to Hunter Water Corporation,

---

<sup>1</sup> The date of gazettal of Determination No. 5, 2009 was 17 July 2009.

from the Commencement Date. The replacement does not affect anything done or omitted to be done, or rights or obligations accrued, under either of Determination No. 2, 2009 or Determination No. 5, 2009 before its replacement.

## **4 Monitoring**

IPART may monitor the Council's performance for the purposes of:

- (a) establishing and reporting on the level of the Council's compliance with this determination; and
- (b) preparing a periodic review of pricing policies in respect of the Monopoly Services.

## **5 Pricing schedules**

- (a) Schedule 1 and the tables in that schedule set out the maximum prices that the Council may charge for Water Supply Services.
- (b) Schedule 2 and the tables in that schedule set out the maximum prices that the Council may charge for Sewerage Services.
- (c) Schedule 3 and the tables in that schedule set out the maximum prices that the Council may charge for Stormwater Drainage Services.
- (d) Schedule 4 and the tables in that schedule set out the maximum prices that the Council may charge for Trade Waste Services.
- (e) Schedule 5 and the table in that schedule set out the maximum prices that the Council may charge for Ancillary and Miscellaneous Customer Services.
- (f) Schedule 6 sets out the reasons why IPART has chosen to set a methodology for fixing a maximum price.

## **6 Definitions and interpretation**

Schedule 7 sets out the definitions and interpretation provisions used in this determination.

## **7 Simplified outline**

- (a) The following is a simplified outline of the maximum prices for Water Supply Services, Sewerage Services and Stormwater Drainage Services set out in this determination.
- (b) The simplified outline has been included for guidance purposes only and does not form part of this determination.

  - (4) the water usage charge levied in accordance with clause 8 of this schedule 1.
- (b) The Council is to levy the relevant water service charge on the owner of that Retirement Village.

---

<sup>2</sup> For example, if a Multi Premises is a Community Parcel with a Common Meter, clause 7.3 of this schedule 1 (and not clause 3 of this schedule 1) will apply. However, if the Multi Premises is a Strata Title Building or Company Title Building, clause 3 of this schedule 1 will apply. If a Retirement Village Unit has an Individual Meter, clause 3 of this schedule 1 will apply to that Retirement Village Unit.

- (b) The Council will amend the water service charges in Tables 1, 2, 3 or 4 of this schedule 1 (and only those charges) in accordance with clause 10(c) of this schedule 1 for the financial year corresponding to the financial year specified in the CCF Order to enable the Council to recover in that financial year (or in a subsequent financial year if clause 10(d) of this schedule 1 applies) the annual contribution specified in the CCF Order for that financial year.
- (c) The water service charges set out in Tables 1, 2, 3 or 4 will be increased for the financial year corresponding to the financial year specified in a CCF Order by an adjusted amount calculated as follows:

$$\frac{CCF\ Amount}{NoOfProperties}$$

where:

*CCF Amount* = the amount specified in the CCF Order for the financial year; and

*NoOfProperties* = the sum of:

- (a) the number of Properties connected to the Water Supply System;  
and

(b) the number of Properties that are not connected, but are reasonably available for connection, to the Water Supply System,

at the date that the calculation under this clause 10(c) is made.

- (d) If a CCF Order is made:
- (1) after the Commencement Date, which requires the Council to make a contribution to the Climate Change Fund for the financial year commencing 1 July 2013;

  - (3) at any other time during this determination, which requires the Council to make a contribution to the Climate Change Fund for a specified financial year, but:
    - (A) the CCF Order is made either before or after that financial year commences; and
    - (B) the CCF Order is made at a time that does not enable the Council to apply clause 10(b) of this schedule 1 for that financial year,

the Council may recover, in a subsequent financial year to the financial year specified in the CCF Order (but not before), the amount that it would have otherwise been entitled to recover under clause 10(b) of this schedule 1 for the financial year specified in the CCF Order.

- (e) In calculating the adjusted amount in clause 10(c) of this schedule 1, the Council must, if notified in writing by IPART, submit to IPART (within the time and in the manner specified by IPART) information to enable IPART to verify that the charges the Council proposes to levy in the relevant financial year comply with this clause 10.
- (f) If IPART gives the Council notice under clause 10(e) of this schedule 1, the Council must not levy any charges in the relevant financial year until it has received written notice from IPART that IPART is satisfied that the charges the Council proposes to levy comply with this clause 10.

Where:

$SC$  = the sewerage service charge in Table 8 for each Meter for the applicable Meter size and Period in that table; and

$DF$  = the relevant Discharge Factor; and

- (d) the sewerage service charge in Table 7 for the applicable Period in that table.

#### 4.4 Sewerage service charges for Metered Non-Residential Multi Premises with one or more Common Meters

- (a) The maximum sewerage service charge that the Council may levy for a Period for supplying Sewerage Services to a Property within a Non-Residential Multi Premises that:

- (1) is connected to the Sewerage System; and
- (2) has one or more Common Meters,

is the higher of:

- (3) the sewerage service charge calculated as follows:

$$\frac{SC \times DF}{n}$$

Where:

$SC$  = the sewerage service charge in Table 8 for each Common Meter for the applicable Meter size and Period in that table;

$DF$  = the relevant Discharge Factor; and

$n$  = the number of Properties within that Multi Premises and any other Non-Residential Multi Premises that is served by the same Common Meter or Common Meters; and

- (4) the sewerage service charge calculated as follows:

$$\frac{SC}{n}$$

Where:

$SC$  = the sewerage service charge in Table 7 for each Common Meter for the applicable Meter size and Period in that table; and

$n$  = the number of Properties within that Multi Premises and any other Non-Residential Multi Premises that is served by the same Common Meter or Common Meters; and

- (b) The Council is to levy the relevant sewerage service charge on the owner of each Property within that Multi Premises and on the owner of each Property within any other Non-Residential Multi Premises that is served by the same Common Meter or Common Meters that serve the first-mentioned Multi Premises.

#### **4.5 Sewerage usage charges for Metered Non-Residential Property with one or more Individual Meters that is not within a Mixed Multi Premises**

The maximum sewerage usage charge that the Council may levy for a Meter Reading Period for supplying Sewerage Services to a Non-Residential Property with one or more Individual Meters that is not within a Mixed Multi Premises is calculated as follows for the Meter Reading Period:

$$[(W \times DF) - DA] \times UC$$

Where:

$W$  = the water used (in kL) by that Non-Residential Property for the Meter Reading Period;

$DF$  = the Discharge Factor for that Non-Residential Property;

$DA$  = the Discharge Allowance for the Meter Reading Period;

$UC$  = the sewerage usage charge in Table 10 for the Meter Reading Period corresponding to the applicable Period in that table and the *volume of sewage discharged*; and

*volume of sewage discharged* = the resulting volume determined by multiplying  $W$  and  $DF$  in this clause 4.5.

#### 4.6 Sewerage usage charges for Metered Non-Residential Multi Premises with one or more Common Meters

- (a) The maximum sewerage usage charge that the Council may levy for a Meter Reading Period for supplying Sewerage Services to a Non-Residential Multi Premises with one or more Common Meters is calculated as follows for the Meter Reading Period:

$$[(W \times DF) - DA] \times UC$$

Where:

$W$  = the water used (in kL) by that Multi Premises for the Meter Reading Period;

$DF$  = the Discharge Factor for that Multi Premises;

$DA$  = the Discharge Allowance for the Meter Reading Period;

$UC$  = the sewerage usage charge in Table 10 for the Meter Reading Period corresponding to the applicable Period in that table and the *volume of sewage discharged*; and

*volume of sewage discharged* = the resulting volume determined by multiplying  $W$  and  $DF$  in this clause 4.6(a).

- (b) The Council is to levy the relevant sewerage usage charge on:

$$[(W \times DF) - DA] \times UC$$

Where:

$W$  = the water used (in kL) by that Retirement Village for the Meter Reading Period;

---

<sup>3</sup> For example, if a Multi Premises is a Community Parcel with a Common Meter, clause 6 of this schedule 1 (and not clause 3 of this schedule 1) will apply. ## Schedule 4 Trade Waste Services

### 1 Application

This schedule sets out the maximum prices that the Council may levy for Trade Waste Services.

### 2 Categories for pricing purposes

#### 2.1 Maximum prices for 3 categories

IPART has determined maximum prices for Trade Waste Services for three categories:

- (a) Category 1 Trade Waste Discharge Services;
- (b) Category 2 Trade Waste Discharge Services; and
- (c) Category 3 Trade Waste Discharge Services.

#### 2.2 Category 1 Trade Waste Discharge Services

The maximum price that the Council may levy for a Period for supplying Trade Waste Services that are Category 1 Trade Waste Discharge Services is calculated as follows:

$$AppFee1 + AnnualFee1 + ReinspectionFee$$

Where:

*AppFee1* = the Category 1 Trade Waste Application Fee in Table 14 (if applicable);

*AnnualFee1* = the Category 1 Annual Trade Waste Fee in Table 14; and

*ReinspectionFee* = the Reinspection Fee in Table 14 (if applicable),

each for the applicable Period in that table.

#### 2.3 Category 2 Trade Waste Discharge Services

The maximum price that the Council may levy for a Period for supplying Trade Waste Services that are Category 2 Trade Waste Discharge Services is calculated as follows:

- (a) With pre-treatment:

$$AppFee2 + AnnualFee2 + ReinspectionFee + [(Consumption \times TWDF) \times UsageCharge]$$

Where:

*AppFee2* = the Category 2 Trade Waste Application Fee in Table 14 (if applicable) for the applicable Period in that table;

*AnnualFee2* = the Category 2 Annual Trade Waste Fee in Table 14 for the applicable Period in that table;

*ReinspectionFee* = the Reinspection Fee in Table 14 (if applicable) for the applicable Period in that table;

*Consumption* = the annual water consumption by the customer;

*TWDF* = the Trade Waste Discharge Factor; and

*UsageCharge* = the Trade Waste Usage Charge in Table 14 for the applicable Period in that table; and

(b) Without pre-treatment:

$$AppFee2 + AnnualFee2 + ReinspectionFee + [(Consumption \times TWDF) \times UsageCharge]$$

Where:

*AppFee2* = the Category 2 Trade Waste Application Fee in Table 14 (if applicable) for the applicable Period in that table;

*AnnualFee2* = the Category 2 Annual Trade Waste Fee in Table 14 for the applicable Period in that table;

*ReinspectionFee* = the Reinspection Fee in Table 14 (if applicable) for the applicable Period in that table;

*Consumption* = the annual water consumption by the customer;

*TWDF* = the Trade Waste Discharge Factor; and

*UsageCharge* = the Trade Waste Usage Charge - nil pre-treatment in Table 14 for the applicable Period in that table.

## 2.4 Category 3 Trade Waste Discharge Services

The maximum price that the Council may levy for a Period for supplying Trade Waste Services that are Category 3 Trade Waste Discharge Services is calculated as follows:

$$AppFee3 + AnnualFee3 + ReinspectionFee + EMC$$

Where:

*AppFee3* = the Category 3 Trade Waste Application Fee in Table 14 (if applicable);

*AnnualFee3* = the Category 3 Annual Trade Waste Fee in Table 14;

*ReinspectionFee* = the Reinspection Fee in Table 14 (if applicable); and

*EMC* = the aggregate of excess mass charges in Table 15, calculated in accordance with the Trade Waste Policy,

each for the applicable Period in the relevant table.

This schedule sets out the maximum prices that the Council may levy for Ancillary and Miscellaneous Customer Services.

### 2 Prices for Ancillary and Miscellaneous Services

- (a) The maximum price that the Council may levy for a Period for supplying an Ancillary and Miscellaneous Customer Service in Table 16 is:
- (1) from the Commencement Date to 30 June 2014 - the corresponding charge in Table 16;
  - (2) from 1 July 2014 to 30 June 2015 - the corresponding charge in Table 16 multiplied by  $(1 + \Delta\text{CPI}_1)$ ;
  - (3) from 1 July 2015 to 30 June 2016 - the corresponding charge in Table 16 multiplied by  $(1 + \Delta\text{CPI}_2)$ ; and
  - (4) from 1 July 2016 to 30 June 2017 - the corresponding charge in Table 16 multiplied by  $(1 + \Delta\text{CPI}_3)$ .
- (b) A reference in Table 16 to 'N/A' means that the Council does not supply the relevant service.

## Schedule 6 Statement of reasons why IPART has chosen to set a methodology for fixing a maximum price

Under section 13A of the IPART Act, IPART may fix maximum prices, set a methodology for fixing maximum prices, or both. In this determination, IPART has fixed maximum prices for each year of the regulatory period, and has included a methodology for fixing the maximum price for water service charges if the Council is required by order of the Minister to make an annual contribution under section 34J of the EUA Act to the Climate Change Fund.

IPART is of the opinion that any contribution by the Council to the Climate Change Fund should be incorporated into the water service charges. However, no order has been made at the date of publication of this determination. By setting a methodology, IPART is able to provide for a contribution to the Climate Change Fund to be included in the water service charges, were an order to be made after the Commencement Date.
