**SOLAR FEED-IN TARIFFS 2017/18**

**Wednesday, 10 May 2017**  
6:00:42 AM

Dear IPART

I am a firm believer of being fair, in turn, I support a fair price for solar.

Which means the feed-in tariff should increase with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range. It should be regulated so electricity suppliers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar. Which means recognising the environmental and health benefits and the network benefits of rooftop solar.

Please consider this as I am one of many with this opinion.
