**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**

3:24:21 PM

I am writing to respectfully request that the solar feed in tariff be at least doubled to more fairly represent the true value of domestically produced power. This tariff should be regulated by government and be mandatory for electricity retailers to pay. My reasons for this request are:

1. A fair tariff will encourage more home owners to install grid connected solar, helping with electricity supply and also helping Australia to move towards its carbon reduction goals.
2. Power companies are at present paying as little as 6 cents per kWh and selling it to others for up to 4 times as much!
3. We need a nationwide, fair, regulated price for roof top solar.

Yours sincerely

Alan Pursch
