

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

7:40:54 PM

the contribution of solar to the whole community is considerable. At present we are helping everyone with our investment to solar power. It is about time we were justly reimbursed for our contribution. Solar is the way of the future, not the past like coal. Please make an investment in our future, by supporting those who have stepped up to show the way.
