

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:47:47 AM

I support a fair price for solar, which should be in line with the wholesale price of electricity, and increase in line with that. Please ensure that the environmental and health benefits of solar are recognised, and that power companies act in accordance with this. Our household currently produces more electricity than we use, but still pay substantially for power from the grid. this is iniquitous, and from a a climate change viewpoint quite absurd.
