SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017

11:34:08 AM

Please get electricity retailers to pay a fair price to solar producers feeding in to power system. We have been getting just 8c/kwhr for years. What they pay us never goes up (it should be indexed), even though the retail price of electricity has risen a lot and has been going up every year.
