Submission: Wyong Creek
15th October, 2018.

Dear IPART,

As the owners of a property west of the M1 (old Wyong LGA) paying residential rates, we strongly object to the proposal of CCC to apply a charge for storm water drainage.

Our property is in a rural area with no services. We are not connected to town water or sewerage and our property is not connected to a storm water drainage system.

We object to paying for a service that our property is not connected to and probably never will be.
We also object to the fact that council failed to inform residential rate payers of this new charge.

We only found out about this proposal by word of mouth following a council “information session” held on Sat 29th Sept.

We also object to the fact that council has lodged a submission that is subject to the area being declared a drainage zone.

We ask IPART to reject the Central Coast Council price review proposal.
