Review	Review of domestic waste management service charges
Document Reference	c1e253a1-4210-41d3-97de-3be8f315fce7
1. Are there concerns with the prices councils charge for domestic waste management services? Why/why not?	Yes. I pay a premium garbage service to have my bin collected weekly which is excessive. I then pay another fee which in the past have residence tip vouchers which now is capped at a certain number per month and if you miss out you miss out, but still pay for it on the rates.
2. If there are concerns, how should IPART respond? For example, if IPART was to regulate or provide greater oversight of these charges, what approach would be the most appropriate? Why?	LCC is vastly miss-managed, they need to be overseen and have regulations put in place in regards to Fees and charges.
3. Would an online centralised database of all NSW councils' domestic waste charges allowing councils and ratepayers to compare charges across comparable councils for equivalent services (eg, kerbside collection), and/or a set of principles to guide councils in pricing domestic waste charges, be helpful? Why/why not?	Yes. It would give LCC management perspective on there fees and charges.
4. Do you have any other comments on councils' domestic waste management charges?	Tip fees are excessive compared to other councils I have lived in, plus have to pay a premium fee to have a Sufficient kerbside collection for a family of 4.
Your submission for this review:	LCC need to be regulated and overseen on fees and charges. I feel they should not charge for a service they are not providing Sufficiently to residents.
