Submission: To Whom It May Concern, I am writing to oppose the proposal by Solo Water to extend the dispersal of treated effluent to an area outside the boundaries of the Beaches estate in Catherine Hill Bay. The Beaches estate should not be allowed to put effluent in any nearby streams, waterways or seas as it will cause a negative environmental impact. My concern is the effluent will end up in Catherine Hill Bay lagoon which pools on the beach and children often swim in. I hope you will take the potential environmental impact of such a proposal very seriously. It is a beautiful beach and surrounding ecosystem - solo water and Beaches should find alternative means to manage their waste. Kind Regards
