Review	Review of domestic waste management service charges
Document Reference	c1e253a1-4210-41d3-97de-3be8f315fce7
1. Are there concerns with the prices councils charge for domestic waste management services? Why/why not?	Yes i am very concerned as I get charged but have to pay a private company for my collection. council has refused to remove these charges even though they don't do it.
2. If there are concerns, how should IPART respond? For example, if IPART was to regulate or provide greater oversight of these charges, what approach would be the most appropriate? Why?	IPART should mediate as the council doesn't communicate without a huge amount of wasted time chasing them. ideally these charges should be removed as they are unfair and just a money grab from council.
3. Would an online centralised database of all NSW councils' domestic waste charges allowing councils and ratepayers to compare charges across comparable councils for equivalent services (eg, kerbside collection), and/or a set of principles to guide councils in pricing domestic waste charges, be helpful? Why/why not?	Sure it would be to keep some visibility. however if one goes up the others will then do the same equaling the price. it will be like fuel prices where service stations follow each other up. they would never go down as what are people going to do. move councils?
4. Do you have any other comments on councils' domestic waste management charges?	mine are completely unfair.
5. Which Council do your comments relate to?	Inner West Council
