Submission: I am a farmer in Kulnura. We are being continually limited with options for us to generate a viable income on our property due to ever increasing Council regulation. As a result, many properties are either being sold off for unproductive pursuits or being left to weeds and feral animals.

To now propose we could be inflicted further with fees for stormwater and sewerage etc is absurd. Council provides practically no services to our land. We do not have sewerage, town water and the garbage service is intermittent at best....we certainly don't have stormwater run off as most of our water is captured in one of our 14 dams. I would encourage this submission to be rejected and the money found elsewhere from within this bloated council!
