

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

9:16:12 PM

I wish to strongly support IPART in achieving a fair price for solar feed-in. The feed-in price must increase in line with the wholesale price of electricity. It is totally unacceptable that electricity retailers reap huge benefits by paying such low feed-in tariffs. They must be forced to offer a fair, regulated minimum of at least 12.0c per kWh..
