

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

12:50:53 PM

It is an outrage that I pay between 21.73 - 23.43 cents per kWh, yet only receive a refund off 6.0 cents per kWh when I feed back into the grid. I recognise that 'poles & wires' are a component of the electricity charge, but they are most certainly NOT almost 75% of the charge. Fairness demands action be taken to increase the feed-in tariff price.
