SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

5:05:00 PM

Some time ago my wife and I installed Solar Power cells on our home. One of the reasons we did this is to defray the cost for us in future years.

I am a person living with Multiple Sclerosis and have been unable to work in my chosen profession for some time. The Solar Rebate will help our reduced income in future years
