

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**  
12:15:57 PM

Rooftop solar is and will increasingly so, be an important part of the next generation energy system of Australia. It will add resilience to the network and community through decentralised production and storage. Feed-in tariffs need to be fair and mandatory for power companies to create continuity that will enable more investment in this sector.
