**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

3:22:00 PM

We need a fair price for solar! The feed-in tariff should increase in line with the wholesale price of electricity, and also needs to be regulated so retailers have to offer it as a minimum. This tariff should reflect the true value of solar, including the environmental and health benefits as well as the network benefits of rooftop solar.
