I support a fair price for feed in tariff. Ordinary families have spent a lot of money and commitment in installing local rooftop systems to generate solar power.

It does not seem at all fair that the money they receive for sending back to the grid is poultry in the light of the true price of power.

It will only encourage people to use up their power for themselves, rather than contribute to the grid

We have now installed a home battery storage, we believe in the future of renewables , but please give a fair go

In light of the
