

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
5:56:53 PM

I wish to support a fair price for solar. This should align with the wholesale price of electricity.

The environmental benefits of renewable energy sources such as solar are indisputable, and it therefore seems illogical to discourage people from contributing to this.

As things stand I can (and do) generate more electricity than I use and still be paying significant electricity bills. This after substantial capital investment.
