SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
1:58:09 PM

dear second class citizen(public servants)

â€¢That you support a fair price for solar;

â€¢The feed-in tariff should increase in line with the wholesale price of electricity;

â€¢The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;

â€¢The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar; and

â€¢any personal examples about your solar systems and experiences with the feed-in tariff
