

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017
9:11:24 PM

I wish to express my support for the increase of solar feeding tariffs to be in line with wholesale electricity prices AND also recognise the environmental and health benefits of solar. I believe this should be regulated to give certainty to individuals and businesses investing in solar generation capacity.

Regards

Charlie Bell
