

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Saturday, 20 May 2017

1:34:34 AM

Dear Sir/Madam,

After the power crisis debacle of last summer and the clear confusion in government as to the causes, I committed to the installation of a 4.5kW solar array on my roof, realising power was too important as issue to leave to free market whims. In order to establish a secure grid, I believe it is essential to encourage more citizens to take this action by offering a reasonable price for the power sources that they have invested in at their own expense.
