Submission: "To whom it may concern....."

I submit that due consideration be given to appeasing the Solar Home generators, rather than escalating their anger and ire!

Consideration could also be given to the fact that through organisations like Solar Citizens, their members could easily flick the switch in a co-ordinated, and rapid response time, to demonstrate supply reliability on these energy providers.

Undoubtedly, the Government would say these blackouts were irresponsible, but that's not much chop for commuters on stranded trains between stations.

Beware the aggrieved solar supplier.
