

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:36:30 AM

In the absence of federal government leadership on climate change and at a time when it is approving new coalmines instead of moving decisively towards renewables, we need to do everything we can to encourage individuals to install solar. I have a stand-alone solar system so will not benefit from a fair price for solar, but nevertheless I believe it is essential that we assist in any way we can to facilitate a mass movement away from contributing to dangerous climate change.
