SOLAR FEED-IN TARIFFS 2017/18

Saturday, 20 May 2017

4:12:15 PM

I support a fair price for solar, increasing the feed in tariff in line with the wholesale price of electricity.

Being on a carer payment, it was great having solar put on, not only to help me financially, but for the environment also. To drop from feed in tariff of 60c down to 6 c has been a huge hardship for our household.

All solar owners deserve a fair go, especially when it helps our environment.
