Submission: It's ridiculous that there is suggestion that there will be another fare increase. I personally take 2 trains and 2 buses a day which is a 3 hr return trip just to get to work -which costs me 65 a week in transport costs. The \$2 train to bus discount helps a little. If this is removed then I can see that it will start costing almost \$100 a week to get to work. Which is 10% of my pay to use in travel costs. This is no fair to the people who commute just to earn a living.
