**SOLAR FEED-IN TARIFFS 2017/18**

5:21:22 PM

I think it's important to maintain a fair mandatory minimum price for solar energy fed into the grid in order to encourage more solar installations and move Australia away from coal. The result will be a cleaner environment for everyone. A premium price should be paid for solar energy compared to coal energy to reflect the extra value it provides in cleaning up the environment.
