

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017

7:14:45 PM

Why should I be paid 5c for my energy generated when I have to pay 40c to buy it. The price of home generated power should be at least the same as the wholesale price. It is obvious the carbon tax was not the problem. It was either the politicians or the power companies all along. When the carbon tax existed the price of power was cheaper.
