SOLAR FEED-IN TARIFFS 2017/18

Saturday, 20 May 2017

6:38:45 AM

I have rooftop solar along with so many other Australians. We are doing our bit towards lowering the nation's carbon footprint and should be encouraged to continue doing so.

We need a fair price for feed-in tariffs. These tariffs should be regulated so that retailers are obliged to offer it as a minimum payment and this should increase along with the wholesale price of electricity.
