SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

5:24:11 PM

We are asking for a fair price for solar roof generated power.

We feel it should be linked to the wholesale price of fossil fuel generated power and be adjusted to price rises.

This should also be mandatory so all providers must provide the feed-in tariff as a minimum

Thank you

Don and Liz Hutchison
