SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017

11:47:48 AM

I wish to support a fair price for solar generation as the electricity companies are using MY solar generation to there advantage, in that the solar power i am generating is being charged back to me (when required)for a much dearer amount than what they are paying me.

I also feel that this feed in tariff should increase with wholesale electricity price increase
