SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
5:51:45 PM

I support a fair price for solar. I get 6c a kilowatt hour and my supplier sells it to my neighbour for 48c. Doesn't seem Australian! The feed in tariff should recognise the true value of solar including the environmental and health benefits. As well it should be regulated so that retailers have to offer it as a minimum.
