SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
11:50:56 AM

I believe that it only fair that us solar producers be fair compensated for what we are producing. The price at present just isn't fair and it comes back to greed by the bigger corporations. The feed-in tariff should increase in line with the wholesale price of electricity and the feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;
