

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Dear IPART,

I too would like to add my name to this list stating similar reasons for wanting to see the feed-in tariff raised .

It is absolutely unfair - a token pittance really and a big step backwards with regards to the environment and overall damage to the world in general.

I realise it's all been said before, but power co's are such huge contributors to the ongoing destruction of our planet, that they really need to step back and make moves like this that won't hugely affect them but will, in a small way, show some compassion.
