

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**

1:04:13 PM

I support an increase in the solar feed-in tariff to more fairly reflect the cost to householders and in future it should be increased in line with increases in the wholesale price. The feed-in tariff should be legislated to avoid energy providers having the capacity to refuse to pass it on to consumers and it should be recognised for the benefits that solar provides environmentally and to the health and well-being of the wider community.
