

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
4:13:30 PM

I wish to add our support that the voluntary benchmark tariff should be made mandatory for power suppliers given that it approaches a much fairer price for the electricity that we supply. It should reach a minimum price for all electricity providers to make it more equitable for all consumers of our ilk. It therefore should reflect a more realistic value for solar energy based on environmental savings and health benefits for us. It also should be tied to future increases in the wholesale price of electricity.
