Submission: "Dear Solar Regulatory tribunal,

This is just a quick email to express our disappointment that you are considering lowering the solar feed in tariff. Please see some of the key issues noted below;

That you support a fair price for solar;

1,It's not fair to punish solar owners who are helping bring down the price of electricity for all NSW energy users;

2,Last year more than half of the retailers in NSW failed to offer a FiT within the benchmark range. The FiT needs to be regulated and mandated so that the retailers have to offer it as a minimum;

3,The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

Thank you for your time and we hope that you reconsider your position on the feed in tariffs.

Regards

Darren"
