Submission: 1. Young nsw already has 9 cabs.. Or one cab per 800 population. Its difficult to make money here. 2. Our drivers generally make about \$13 per hour or less (averaged over 12 months) This also makes it difficult to engage and keep good drivers 3. There are 14 community transport cars/buses operating in Young. 4. YOUNG has an efficient service already (where minimum available car numbers are adhered to at all times)and our patrons will attest to a waiting time of 5-10 mins maximum except in extraordinary circumstances. 5. More taxis allocated to Young may cause some long time taxi owners to retire already 3 cars are leased out short term. 6. Illegal ridesharing via social media sites is growing and yet impossible to prove.
