SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
6:28:32 PM

I think its absolutely disgusting the paltry amount the electricity companies pay for feed in from solar panels. Considering the obscene prices they are charging consumers and the totally abhorrent daily access fee. I feel these companies should be held more accountable and regulated more rigidly as to their pricing. I hear so many people who are struggling with their everyday utilities and collective governments both state and federal do absolutely nothing when it is them who have sold the consumer down the drain with their greed! Not happy and unless someone stands up and makes these parasites accountable I feel the dissatisfaction will be enough to cost these politicians government. We have had enough!!
