

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:53:49 AM

This new higher recommended rate is an improvement. But more should be done.

I think that a decent minimum rate should be regulated rather than recommended. And the rate should take into account network, health and environmental benefits of grid-connected solar systems. This happens in many other jurisdictions and should also happen here.
