SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017
11:37:36 AM

As a pensioner with no additional income, rises in real costs, either brought about by tariff increases or reduced rebates, impinges on our life quality.

i fully support a fair price for solar, indexed to the wholesale price for electricity.

the loss of the 60c rebate has hit our pockets very hard and we feel that we have been take advantage of.
