SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

12:26:22 PM

I absolutely support a fair price for solar.

The feed-in tariff should increase in line with the wholesale price of electricity and the feed-in tariff should be regulated so retailers have to offer it as a fair price.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar energy.
