

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

10:52:44 PM

Current tarriff rates only encourage us to use lots of power while the sun shines so we dont have to buy any in. A fairer price as suggested (1/2 what we pay) would encourage us to increase the size of our system to help provide more power to the grid.
